## **B. FUTURE OUTLOOK:**

As we approach FY 2023–24, the Indian economy, with its rapid growth, is offering a plethora of opportunities which we intend to capitalise. RBI policies have helped to curb inflation to a certain extent resulting in future economic outlook quite optimistic. We are consistently investing in enhancing our capacities, adopting new technologies, upgrading existing processes and hiring highly skilled manpower to create an organization that can deftly deal with challenges in the future. Our operational excellence will propel us to the path of glory and success.

FY 23-24 has therefore started on a very positive note with healthy pipeline and robust order booking combined with full year benefit of contract won in last quarter of FY 22-23.

Driving strongly our four business platforms, our major focus will be on Environmental Services “Accelerating Your Net Zero Journey” for our customer in their initiative on ESG. Wins in Solar EPC, EV depot and charging infrastructure management underly our approach strategy towards building growth.

We are building robust and disciplined approach for bid mechanism to strengthen our Contract Management System. Our ongoing efforts on margin improvements initiatives including supply chain rationalisation, labour efficiency, overhead costs will offset inflationary headwinds.

The positive outlook in new financial year gears us for a better year ahead. We are committed to deliver in a self-sustained eco system with our people being fundamental to our success. We foster the culture of “Humanity Ahead”, with forms the basis of creating a sustainable environment based on the principle of equity, diversity and inclusion.

## ANNEXURE IV

**Form No. MR-3**  
**SECRETARIAL AUDIT REPORT**  
**FOR THE FINANCIAL YEAR ENDED: 31<sup>ST</sup> MARCH, 2023**  
[Pursuant to section 204(1) of the Companies Act, 2013 and  
Rule No.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

### SECRETARIAL AUDIT REPORT FOR THE FINANCIAL YEAR ENDED 31<sup>ST</sup> MARCH 2023

To  
The Members,  
**BVG INDIA LIMITED**

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **BVG INDIA LIMITED** (hereinafter called the company). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of BVG INDIA LIMITED's books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the company has, during the audit period covering the financial year ended on 31<sup>ST</sup> MARCH 2023, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed, and other records maintained by BVG INDIA LIMITED ("the Company") for the financial year ended on 31<sup>ST</sup> MARCH 2023, according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made there under.
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under; - NOT APPLICABLE
- (iii) The Depositories Act, 1996 and the Regulations and Byelaws framed there under;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings.
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'): - NOT APPLICABLE
  - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
  - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 1992;

## **INDEPENDENT AUDITOR'S REPORT**

**To the Members of BVG India Limited**

**Report on the Audit of the Standalone Financial Statements**

### **Opinion**

We have audited the accompanying standalone financial statements of BVG India Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2023, and the Statement of Profit and Loss (Including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and profit, other comprehensive income, changes in equity and its cash flows for the year ended on that date.

### **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained is sufficient and appropriate to provide a basis for our opinion.

### **Information Other than the Standalone Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the other information. The other information comprises the Management report, Chairman's statement, Director's report and other information included in annual report but does not include the standalone financial statements and our auditor's report thereon, which we obtained prior to the date of this auditor's report, and Management report, Chairman's statement, Director's report and other information included in annual report, which is expected to be made available to us after that date.

Our opinion on the standalone financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements, or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

We give in “Annexure A” a detailed description of Auditor’s responsibilities for Audit of the Standalone Financial Statements.

#### **Other Matter**

We did not audit the financial statements of one jointly controlled entity included in the standalone financial statements of the Company whose financial information (representing the share of the Company) reflects total assets of Rs. 55.29 million as at March 31, 2023 and the total revenue of Rs. Nil for the year ended on that date, as considered in the standalone financial statements. The financial information of this joint operation is unaudited and has been furnished to us by the Management and our opinion on the standalone financial statement, in so far as it relates to the amounts and disclosures included in respect of joint operations, and our report in terms of sub section (3) of Section 143 of the Act in so far as it relates to the aforesaid joint operations, is based solely on such unaudited financial information.

Our opinion is not modified in respect of this matter.

#### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor’s Report) Order, 2020 (“the Order”), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in “Annexure B” a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
  - (a) We have sought and obtained all the information and explanation and knowledge and belief were necessary for the purposes of our audit.
  - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account .
  - (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015 as amended.
  - (e) On the basis of the written representations received from the directors as on March 31, 2023 taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.

- (f) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure C”.
- (g) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements - Refer Note 31-34 to the standalone financial statements;
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;
  - iv.
    - (a) The Management has represented that, to the best of it’s knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
    - (b) The Management has represented, that, to the best of it’s knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities (Funding Parties), with the understanding, whether recorded in writing or otherwise, as on the date of this audit report, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
    - (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, and according to the information and explanations provided to us by the Management in this regard nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) as provided under (1) and (2) above, contain any material mis-statement.
  - v. Final dividend paid by the Company during the year in respect of the same declared for the previous year is in accordance with section 123 of the Companies Act 2013 to the extent it applies to payment of dividend.

The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend. (Refer Note 15 to the Standalone financial statements).

- vi. As proviso to rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable for the company only w.e.f. April 1, 2023, reporting under this clause is not applicable.
3. In our opinion, according to information, explanations given to us, the remuneration paid by the Company to its directors is within the limits laid prescribed under Section 197 of the Act and the rules thereunder.

**ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT ON EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF BVG INDIA LIMITED**

**Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

**ANNEXURE B TO INDEPENDENT AUDITORS' REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF BVG INDIA LIMITED FOR THE YEAR ENDED MARCH 31, 2023**

[Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditors' Report]

i.

(a) A. The Company has maintained proper records showing full particulars including quantitative details and situation of Property, Plant and Equipment.

B. The Company has maintained proper records showing full particulars of intangible assets.

(b) All the Property, Plant and Equipment, Investment property and Right of use assets have not been physically verified by the management during the year but there is a regular programme of verification, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.

(c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) as disclosed in the financial statements are held in the name of the Company.

(d) According to the information and explanations given to us, the Company has not revalued its property, plant and Equipment (including Right of Use assets) and its intangible assets during the year. Accordingly, the requirements under paragraph 3(i)(d) of the Order are not applicable to the Company.

(e) According to the information and explanations given to us, no proceeding has been initiated or pending against the Company for holding benami property under the Benami Transactions (Prohibition) Act, 1988, as amended and rules made thereunder. Accordingly, the provisions stated in paragraph 3(i) (e) of the Order are not applicable to the Company.

**ANNEXURE C TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF BVG INDIA LIMITED**

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditors' Report of even date to the Members of BVG India Limited on the Financial Statements for the year ended March 31, 2023]

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

**Opinion**

We have audited the internal financial controls with reference to standalone financial statements of BVG India Limited ("the Company") as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2023, based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI) (the "Guidance Note").

**Management's Responsibility for Internal Financial Controls**

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether

adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

#### **Meaning of Internal Financial Controls With reference to Standalone Financial Statements**

A Company's internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

## **Inherent Limitations of Internal Financial Controls With reference to Standalone financial statements**

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## BVG India Limited

Notes forming part of the standalone financial statements for the year ended 31 March 2023  
(All amounts are in Indian Rupees million)

### 1 The corporate overview

BVG India Limited ('BVG' or 'the Company') was incorporated on 20 March 2002 as Bharat Vikas Utility Services Limited. The name of the Company was subsequently changed to BVG India Limited on 7 July 2004.

The registered office of the Company is in Pune. The Company is engaged in the business of integrated facility management services, including mechanized housekeeping, transportation, manpower supply, and other specialised services such as solid waste management, emergency medical services, emergency police services, etc.

The Company also undertakes various projects for garden development, landscaping, beautification projects, solar EPC contracts and other turnkey contracts.

The Corporate Identification Number (CIN) of the Company is U74999PN2002PLC016834. The standalone financial statements were approved for issue in accordance with a resolution of the Board of directors on 23 June 2023.

### 2 Significant accounting policies

Significant accounting policies adopted by the company are as under:

#### 2.1 Basis of preparation

##### a. Statement of Compliance with Ind AS

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the "Act") read with the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

Accounting policies have been consistently applied to all the years presented except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

#### 2.2 Basis of measurement

The financial statements have been prepared on a historical cost convention on accrual basis, except for the following material items that have been measured on an alternative basis on each reporting date:

Items	Measurement basis
Certain non-derivative financial instruments at fair value through profit or loss	Fair value
Assets held for sale	Lower of carrying value as per the respective Ind AS and Fair value less cost to sell
Defined benefit plan assets	Fair value

## **BVG India Limited**

Notes forming part of the standalone financial statements for the year ended 31 March 2023  
(All amounts are in Indian Rupees million)

### **2.3 Functional and presentation currency**

These financial statements are presented in Indian Rupees (INR), which is the Company's functional currency. All amounts have been rounded-off to the nearest million, as per the requirements of Schedule III, unless otherwise stated.

### **2.4 Significant accounting judgments, estimates and assumptions**

The preparation of financial statements in conformity with Ind AS requires the Management to make estimate and assumptions that affect the reported amount of assets and liabilities as at the Balance Sheet date, reported amount of revenue and expenses for the year and disclosures of contingent liabilities as at the Balance Sheet date. The estimates and assumptions used in the accompanying financial statements are based upon the Management's evaluation of the relevant facts and circumstances as at the date of the financial statements. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates, if any, are recognized in the year in which the estimates are revised and in any future years affected.

Detailed information about each of these estimates and judgements is included in relevant notes.

The areas involving critical estimates and judgements are:

- Estimation of current tax expense and payable – Note 29
- Estimation of defined benefit obligation – Note 38
- Leases: Arrangement containing a lease – Note 37
- Recognition of deferred tax assets/ liabilities and MAT credit entitlement – Note 29
- Impairment of financial assets – Note 11 and 43
- Impairment of intangibles assets under development – Note 5
- Valuation of financial liability – Note 18
- Property, plant and equipment: useful lives and residual values – Note 3, 4 and 6

### **2.5 Current versus non-current classification**

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

## **BVG India Limited**

Notes forming part of the standalone financial statements for the year ended 31 March 2023  
(All amounts are in Indian Rupees million)

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

### **Operating cycle**

Based on the nature of services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle for its facility and project businesses to be less than 12 months for the purpose of current – non-current classification of assets and liabilities.

## **2.6 Property, plant and equipment**

### **• Recognition and measurement**

Items of property, plant and equipment are measured at cost of acquisition or construction less accumulated depreciation and/or accumulated impairment loss, if any. The cost of an item of property, plant and equipment comprises its purchase price, including import duties and other non-refundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use; any trade discounts and rebates are deducted in arriving at the purchase price. Borrowing costs directly attributable to the construction of a qualifying asset are capitalised as part of the cost.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Property, plant and equipment under construction are disclosed as 'Capital work-in-progress'.

Advances paid towards the acquisition of property, plant and equipment outstanding at each reporting date are disclosed under 'Other non-current assets'.

### **• Subsequent expenditure**

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in the statement of profit and loss as incurred.

### **• Disposal**

An item of property, plant and equipment is derecognised upon disposal or when no future benefits are expected from its use or disposal. Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised net within other income/ expenses in the statement of profit and loss.

### **• Depreciation**

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value. Depreciation is recognised in the statement of profit and loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment as prescribed in Schedule II of the Companies Act, 2013.

## **BVG India Limited**

Notes forming part of the standalone financial statements for the year ended 31 March 2023  
(All amounts are in Indian Rupees million)

Freehold land is not depreciated. Acquired assets consisting of leasehold improvements are recorded at acquisition cost and amortised on straight-line basis based over the leased term of 9 years.

The property, plant and equipment acquired under finance leases is depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term.

Depreciation on addition to property plant and equipment is provided on pro-rata basis from the date of acquisition. Depreciation on sale/deduction from property plant and equipment is provided up to the date preceding the date of sale, deduction as the case may be. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in Statement of Profit and Loss under 'Other Income' / 'Other Expenses'.

The useful lives are reviewed by the management at each financial year-end and revised, if appropriate. In case of a revision, the unamortised depreciable amount is charged over the revised remaining useful life.

### **2.7 Investment properties**

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized as profit or loss as incurred.

The Company depreciates investment property over 86 years from the date of original purchase

Though the Company measures investment property using cost-based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer applying a valuation model.

Investment properties are derecognized either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of derecognition.

### **2.8 Goodwill**

Goodwill represents the future economic benefits arising from a business combination that are not individually identified and separately recognised. Goodwill is carried at cost less accumulated impairment losses. Refer Note 2.10 for description of impairment testing procedures.

### **2.9 Other Intangible assets**

- **Recognition and measurement**

## **BVG India Limited**

Notes forming part of the standalone financial statements for the year ended 31 March 2023  
(All amounts are in Indian Rupees million)

Intangible assets are recognised when the asset is identifiable, is within the control of the Company, it is probable that the future economic benefits that are attributable to the asset will flow to the Company and cost of the asset can be reliably measured.

Intangible assets acquired by the Company that have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment losses.

Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

- **Subsequent measurement**

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates.

- **Amortisation**

Amortisation is calculated over the cost of the asset, or other amount substituted for cost, less its residual value. Amortisation is recognised in statement of profit and loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

The estimated useful life for current and comparative periods is 3 years.

### **2.10 Impairment of non-financial assets**

The Company assesses at each balance sheet date whether there is any indication that an asset or cash generating unit (CGU) may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal or its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are considered.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in the statement of profit and loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

## **BVG India Limited**

Notes forming part of the standalone financial statements for the year ended 31 March 2023  
(All amounts are in Indian Rupees million)

### **2.11 Assets classified as held for sale and discontinued operations**

The Company classifies non-current assets (or disposal group) as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use.

The criteria for held for sale classification is regarded met only when the assets (or disposal group) are available for immediate sale in its present condition, subject only to terms that are usual and customary for sale of such assets (or disposal group), the sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset (or disposal group) to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset (or disposal group),
- An active programme to locate a buyer and complete the plan has been initiated (if applicable)
- The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets (or disposal group) held for sale are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities (or disposal group) classified as held for sale are presented separately in the Balance sheet.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortized.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from the other liabilities in the balance sheet.

A discontinued operation is a component of an entity that either has been disposed of, or is classified as held for sale, and represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in statement of profit or loss.

### **2.12 Joint arrangements**

Under Ind AS 111, Joint Arrangements, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor rather than the legal structure of the joint arrangement. The Company has only joint operations.

The Company recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These have been incorporated in the financial statements under the appropriate headings. Details of the joint operation are set out in note 6 – Investments.

## **BVG India Limited**

Notes forming part of the standalone financial statements for the year ended 31 March 2023  
(All amounts are in Indian Rupees million)

### **2.13 Inventories**

Inventories are measured at lower of cost and net realisable value. Cost is determined on the basis of weighted average method and includes expenditure in acquiring the inventories and bringing them to the present location and condition.

Cost comprises of purchase cost, duties and other direct expenses incurred in bringing the inventory to the present location and condition.

Provision of obsolescence on inventories is considered on the basis of management's estimate based on demand and market of the inventories.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

The comparison of cost and net realizable value is made on item by item basis.

### **2.14 Cash and cash equivalents**

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purposes of the cash flow statement, cash and cash equivalents include cash on hand, cash in banks and short-term deposits net of bank overdraft.

### **2.15 Revenue recognition**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made.

Revenue is measured at the fair value of the consideration received or receivable. Amounts included in revenue are net of returns, trade allowances, rebates, Goods and Service Tax and amounts collected on behalf of third parties.

Revenue from contract with customer is recognized, when control of the goods or services are transferred to the customer, at an amount that reflects the consideration to which the Company is expected to be entitled in exchange for those goods or services. The Company assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The Company concluded that it is acting as a principal in all of its revenue arrangements. The specific recognition criteria described below must also be met before revenue is recognized.

Revenue is recognised as follows:

- **Sale of goods**

Revenue from sale of goods in the course of ordinary activities is recognized when control of the goods has been transferred, being when the goods are delivered to the customer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods and regarding its collection.

- **Rendering of services**

Revenue on service/maintenance contracts is recognized on straight-line basis over the period of the contract on performance of the services.

## **BVG India Limited**

Notes forming part of the standalone financial statements for the year ended 31 March 2023  
(All amounts are in Indian Rupees million)

### • **Revenue from Rural Electrification ('RE') contracts**

The Company recognizes revenue at the transaction price which is determined on the basis of agreement entered into with or letter of intent issued by the customer. Revenue from RE contracts is recognized at the point in time, when the control of the asset is transferred to the customer, which generally coincides with the receipt of Certificate of work completion. Until the time the control of the asset is transferred to the customer, the cost incurred to date in respect of such contracts is accounted as 'Work in progress'.

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the control of the asset is transferred to the customer. A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

### **2.16 Interest income**

Interest income is recognised using effective interest rate method (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability.

### **2.17 Foreign currency transactions and balances**

Transactions in foreign currency are recorded at exchange rates prevailing at the date of transactions. Exchange differences arising on foreign exchange transactions settled during the year are recognised in the statement of profit and loss of the year.

Monetary assets and liabilities denominated in foreign currencies which are outstanding, as at the reporting period are translated at the closing exchange rates and the resultant exchange differences are recognised in the statement of profit and loss.

Non-monetary assets and liabilities denominated in foreign currencies that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction.

### **2.18 Employee benefits**

#### • **Short-term employee benefits**

Employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and are recognised in the period in which the employee renders the related service. These benefits include salaries and wages, bonus and compensated absences. The undiscounted amount of short-term employee services is recognised as an expense as the related service is rendered by the employees.

#### • **Post-employment benefits**

##### **Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity (regulatory authority) and will have no legal or constructive obligation to pay any further amounts. The Company makes specified monthly contribution towards

## **BVG India Limited**

Notes forming part of the standalone financial statements for the year ended 31 March 2023  
(All amounts are in Indian Rupees million)

employee provident fund scheme and employees' state insurance scheme the regulatory authorities. The Company's contribution is recognised as an employee benefit expense in the statement of profit and loss in the period in which the employee renders the related service.

### **Defined benefit plans**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan, the present value of the obligation under which is determined based on actuarial valuation using the projected unit credit method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans, is based on the market yields on government securities as at the reporting date, having maturity periods approximating to the terms of related obligations.

Re-measurement of the net defined benefit liability, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income (OCI) in the period in which they occur. Remeasurements are not reclassified to the statement of profit and loss in subsequent periods.

In case of funded plans, the fair value of the plan's assets is reduced from the gross obligation under the defined benefit plans, to recognise the obligation on net basis.

The liability for gratuity with respect to certain staff and workers is funded annually through a gratuity fund maintained with the Life Insurance Corporation of India.

When the benefits of the plan are changed or when a plan is curtailed, the resulting change in benefits that relates to past service or the gain or loss on curtailment is recognised immediately in the statement of profit and loss. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises gains/ losses on settlement of a defined plan when the settlement occurs.

### **Compensated Absences**

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

The Company treats accumulated leave expected to be carried forward beyond 12 months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end. The Company presents the leave as a current liability in the balance sheet as it does not have an unconditional right to defer its utilisation for 12 months after the reporting date.

The Company's liability is determined on actual basis at the end of each year.

## **BVG India Limited**

Notes forming part of the standalone financial statements for the year ended 31 March 2023  
(All amounts are in Indian Rupees million)

### **2.19 Contributed equity**

Equity shares are classified as equity share capital. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

### **2.20 Leases**

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

- **Company as a lessee**

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

#### Right of use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

## **BVG India Limited**

Notes forming part of the standalone financial statements for the year ended 31 March 2023  
(All amounts are in Indian Rupees million)

### Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

- **Company as lessor**

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset is classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

### **2.21 Borrowing costs**

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. All other borrowing costs are expensed in the period in which they are incurred.

### **2.22 Income tax**

Income tax expense comprises current and deferred tax. It is recognised in the statement of profit and loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

- **Current tax**

Current tax or liabilities are measured at the amount expected to be recovered from or paid to

(All amounts are in Indian Rupees million)

the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the country where the Company operates and generates taxable income. Current tax assets and liabilities are offset only if there is a legally enforceable right to set it off the recognised amounts and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum Alternate Tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognises MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. The Company reviews the MAT credit entitlement at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

### • Deferred tax

Deferred tax is recognised using the balance sheet method on temporary differences between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity.

Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

## **BVG India Limited**

Notes forming part of the standalone financial statements for the year ended 31 March 2023  
(All amounts are in Indian Rupees million)

In the situations where the Company is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognised in respect of temporary differences which reverse during the tax holiday period, to the extent the Company's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognized in the year in which the timing differences originate. However, the Company restricts recognition of deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the temporary differences which originate first are considered to reverse first.

### **2.23 Provisions and contingencies**

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost in the statement of profit and loss.

Contingent liability is disclosed in case of

- a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation.
- present obligation arising from past events, when no reliable estimate is possible
- a possible obligation arising from past events where the probability of outflow of resources is not remote.

Contingent asset is not recognised in the financial statements. A contingent asset is disclosed, where an inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

### **2.24 Earnings per share ('EPS')**

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Earnings considered in ascertaining the Company's earnings per share is the net profit or loss for the year after deducting preference dividends and any attributable tax thereto for the year. The weighted average number of equity shares outstanding during the year and for all the years presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

### **2.25 Fair value measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

## BVG India Limited

Notes forming part of the standalone financial statements for the year ended 31 March 2023

To fair value disclosures, the Company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

### 2.26 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### a) Financial assets

- i. Initial recognition and measurement: At initial recognition, financial asset is measured at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.
- ii. Subsequent measurement: For purposes of subsequent measurement, financial assets are classified in following categories:
  - at amortized cost; or
  - at fair value through other comprehensive income; or
  - at fair value through profit or loss.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method (EIR).

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in Statement of Profit and Loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to Statement of Profit and Loss and recognized in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVTPL): Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. Interest income from these financial assets is included in other income.

Equity instruments: All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the

## **BVG India Limited**

Notes forming part of the standalone financial statements for the year ended 31 March 2023  
(All amounts are in Indian Rupees million)

fair value. The Company makes such election on an instrument- by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

### iii. Impairment of financial assets

In accordance with Ind AS 109, Financial Instruments, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets that are measured at amortized cost and FVOCI.

For recognition of impairment loss on financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent years, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 months ECL.

Lifetime ECLs are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 months ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the year end.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including prepayment, extension etc.) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

In general, it is presumed that credit risk has significantly increased since initial recognition if the payment is more than 30 days past due.

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/expense in the statement of profit and loss. In balance sheet ECL for financial assets measured at amortized cost is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

## BVG India Limited

Notes forming part of the standalone financial statements for the year ended 31 March 2023  
(All amounts are in Indian Rupees million)

For trade receivables only, the Company applies the simplified approach permitted by 'Ind AS 109 - Financial instruments', which requires expected lifetime losses to be recognised from initial recognition of the receivables.

- iv. Derecognition of financial assets: A financial asset is derecognized only when:
  - a. the rights to receive cash flows from the financial asset is transferred or
  - b. retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.
  - c. Where the financial asset is transferred then in that case financial asset is derecognized only if substantially all risks and rewards of ownership of the financial asset is transferred. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

### b) Financial liabilities

- i. Initial recognition and measurement: Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and at amortized cost, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs.

- ii. Subsequent measurement: The measurement of financial liabilities depends on their classification, as described below:

#### *Financial liabilities at fair value through profit or loss*

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

#### *Loans and borrowings*

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

- iii. Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss as finance costs.

Notes forming part of the standalone financial statements for the year ended 31 March 2023  
(All amounts are in Indian Rupees million)

### **c) Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

#### **2.27 Cash dividend to equity holders**

The Company recognises a liability to make cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

#### **2.28 Convertible preference shares**

Convertible preference shares are separated into liability and equity components based on the terms of the contract.

On issuance of the convertible preference shares, the fair value of the liability portion of a compulsorily convertible preference shares is determined using a market interest rate for an equivalent non-convertible bonds. This amount is recorded as a liability on an amortised cost basis until extinguished on conversion or redemption of the bonds. The remainder of the proceeds is attributable to the equity portion of the compound instrument since it meets Ind AS 32, Financial Instruments: Presentation, criteria for fixed to fixed classification. Transaction costs are deducted from equity, net of associated income tax. The carrying amount of the conversion option is not subsequently re-measured.

Transaction costs are apportioned between the liability and equity components of the convertible preference shares based on the allocation of proceeds to the liability and equity components when the instruments are initially recognized.

### **2.29 Operating segments**

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available. All operating segments' operating results are reviewed regularly by the Company's Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segments and assess their performance.

#### 14.2 Rights, preferences and restrictions attached to equity shares

The Company has only one class of equity shares having a par value of Rs. 10. Each holder of equity shares is entitled to one vote per share. The Company declares and pays dividends in Indian Rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting.

The Board of Directors, in their meeting on 23 June 2023, proposed a final dividend of INR 2.50 per equity share (2022: INR 2.50). The proposal is subject to the approval of shareholders at the ensuing Annual General Meeting. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding.

#### 14.3 Rights, preferences and restrictions attached to preference shares (Instruments entirely equity in nature)

The Compulsory Convertible Cumulative Preference Shares (CCPS) that were privately placed with Strategic Investments FM (Mauritius) B Limited and Strategic Investments FM (Mauritius) Alpha Limited are convertible into equity shares of the Company, at a predetermined rate pursuant to the Investment Agreement. The holders of CCPS shall be entitled to an annual per share dividend equal to 0.001% of the consideration paid for the preference shares. The preference shareholders are entitled to one vote per share at meetings of the Company on any resolutions of the Company directly affecting their rights. In the event of winding up, preference shareholders have a preferential right over equity shareholders to be repaid to the extent of capital paid-up and dividend in arrears on such shares.

#### 14.6 Classification of equity shares and CCPS ('Investor shares') as financial liability:

Under the provisions of Ind AS 32 "Financial Instruments - Presentation", the issuer of a financial instrument shall classify the instrument, or its component parts, on initial recognition as a financial liability, a financial asset or an equity instrument in accordance with the substance (and not the legal form) of the contractual arrangement and the definitions of a financial liability, a financial asset and an equity instrument.

A financial liability is defined as a liability that is a contractual obligation to deliver cash or any other financial asset or another entity.

In accordance with the Share holders' agreement, all CCPS series are cumulative, mandatorily and fully convertible. Further, with respect to the exit options available to the investors, the Company is liable to buy back all or any portion of the Investor Shares at fair market value determined by a valuer as per the investor agreement at the time of buy back, if certain conditions are not fulfilled by the Company.

Since there is an unavoidable obligation to pay cash in case of buy back of shares by the Company, these had initially been classified as a financial liability at fair value through Statement of Profit & Loss. Any directly attributable transaction cost were recognised in Statement of Profit & Loss as incurred.

Based on the addendum (vide a letter) to the shareholders agreement, the said liability was restated back to equity in the financial year 2017-18. Such addendum was further renewed vide extension letters issued at appropriate instances.

(a) Guarantees disclosed above excludes performance guarantee amounting to Rs. 3,317.48 million (31 March 2022: 2,316.67 million) towards bid security, earnest money deposit and security deposit.

(b) Since the decision for retrospective application of the amendment in Payment of Bonus Act, 1965 is pending with Hon'ble Bombay High Court, the Company has considered the amendment prospectively from FY 2015-16.

(c) The service tax claim (excluding interest and penalty) is on account of disallowance of exemptions on certain services by the Service tax department for the period of FYs 2012-18. The Company has filed an appeal with Central Excise and Service Tax Appellate Tribunal against the orders covering the period of FYs 2012-18. The quantum of interest and penalty on above cannot be ascertained at the litigation stage and shall be finalised upon conclusion of the litigation.

- 32** On 6 November 2019, a search/survey was conducted on the Company by the Income Tax Department pursuant to the provisions of section 132/133 of the Income Tax Act, 1961 ("the IT Act"). The proceedings covered various office locations, and residences of certain directors and employees of the Company. During these proceedings, the Income Tax department had requisitioned books of account and other documents under section 132A/133 of the IT Act for AY 2014-15 to AY 2020-21 ('the Relevant years'). During the previous year, the Income Tax Department passed demand orders u/s 144 of the IT Act for the Relevant years, which were subsequently rectified taking into consideration errors apparent from the demand order ("Rectified Orders"). The amount of demand as per the Rectified Orders was INR 1,297.87 million. The Company had filed an appeal before the Commissioner of Income Tax (Appeals) against these Rectified Orders for the Relevant years. During the course of the appeal proceedings, the Company made submissions and representations, challenging the basis of the demand and seeking relevant information regarding the additions in the assessment order. However, the appeal proceedings were disposed off by the Commissioner of Income Tax (Appeals) vide orders dated 24 February 2023 ("the CIT(A) Orders") without seeking a remand report from the Assessing Officer for verification of basis of additions, providing part relief to the Company for AY 2019-20. Subsequently, on 24 April 2023, the Income Tax Department has filed an appeal before the Income Tax Appellate Tribunal, Pune Bench ("the ITAT") against the CIT(A) order for AY 2019-20. Further, the Company also filed an appeal before the ITAT against the CIT(A) orders for all the Relevant years. The appeal proceedings are ongoing.

The assessment was completed on a best judgment basis. During the course of the assessment proceedings and appellate proceedings, the Company had sought certain information and clarifications from the Income Tax Department. Due to non-availability of sufficient information regarding the basis of additions in the assessment order, the management is currently unable to quantify any reasonable tax obligation that may arise out of the said search/survey proceedings. Accordingly, no provision has been made pursuant to above matter in the current year.

- 33** The Honourable Supreme court gave a judgement dated February 28, 2019 on certain aspects related to Provident Fund. The question before the Supreme Court was whether certain allowances payable to all employees generally or to all employees engaged in a particular category would also fall within the purview of 'basic wages' for the purpose of determining the amount of EPF Contribution payable by the employer.

In reference to the above judgement, the Company is of the view that it is highly unlikely that the judgment of the Supreme Court would call for retrospective application. Further, the Company is also of the view that there are interpretation challenges and considerable uncertainty, including estimating the amount retrospectively.

Consequently, no financial effect has been provided in the financial statements towards any potential retrospective application of the above Supreme court judgement. However, as a matter of abundant caution, the Company has made a provision on a prospective basis and believes that the difference between the provision and the expected liability (if any) is not material.

- 34** The Ministry of Corporate Affairs ('MCA') informed the Company that an investigation into the affairs of the Company has been initiated under Section 210(1)(a) and (c) of the Companies Act, 2013. Subsequently, the MCA issued letters requiring the Company to furnish information and documents including, among other things, its financial statements, statutory records, books of accounts, details of its business and branches, details of litigations, etc.

The Company has duly submitted responses to the letters received, along with the requisite documents and information, and has not received any further communication from the MCA. The matter is currently pending.

**36 Operating segments****A. Description of segments and principal activities**

The business activities of the Company from which it earns revenues and incurs expenses; whose operating results are regularly reviewed by the chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available involve predominantly four segments.

The following summary describes the operations in each of the Company's reportable segments:

<b>Reportable segments</b>	<b>Operations</b>
1. Facility services:	The division is engaged in the business of integrated facility management services, including mechanized housekeeping, transportation, manpower supply, and other specialised services such as solid waste management, emergency medical services, emergency police services, etc.
2. Facility projects:	The division is engaged in the business of horticulture, gardening and landscaping services, solar EPC contracts, other turnkey contracts, etc.
3. Engineering projects (discontinued):	The division is engaged in the business of electrical erection and commissioning contracts.

**B. Basis of identifying operating segments, reportable segments and segment profit****(i) Basis of identifying operating segments:**

Operating segments are identified as those components of the Company

(a) that engage in business activities to earn revenues and incur expenses (including transactions with any of the Company's other components;

(b) whose operating results are regularly reviewed by the Company's Chief Operating Decision Maker (CODM) to make decisions about resource allocation and performance assessment and

(c) for which discrete financial information is available.

The Company has four reportable segments as described under 'Description of segments and principal activities' above. The nature of products and services offered by these businesses are different and are managed separately.

**(ii) Reportable segments:**

An operating segment is classified as reportable segment if reported revenue (including inter-segment revenue) or absolute amount of result or assets exceed 10% or more of the combined total of all the operating segments.

**(iii) Segment profit:**

Performance of a segment is measured based on segment profit (before interest and tax), as included in the internal management reports that are reviewed by the Company's CODM.

## BVG India Limited

### Notes forming part of the standalone financial statements (continued)

as at 31 March 2023

(All amounts are in Indian Rupees million)

#### 37 Leases

##### Definition of lease

Under Ind AS 116, the Company assesses whether a contract is or contains a lease based on the definition of a lease, as explained in accounting policies.

##### A. As a lessee

Under Ind AS 116, the Company recognises right-of-use assets and lease liabilities for most leases – i.e. these leases are on-balance sheet.

The Company decided to apply recognition exemptions to short-term leases. For leases of other assets, which were classified as operating under Ind AS 116, the Company recognised right-of-use assets and lease liabilities.

##### B. As a lessor

The Company is not required to make any adjustments on transition to Ind AS 116 for leases in which it acts as a lessor, except for a sub-lease. The Company accounted for its leases in accordance with Ind AS 116 from the date of initial application.

##### C. Impact on financial statements

On transition to Ind AS 116, the Company recognised INR 63.10 million as right-of-use assets and INR 65.26 as lease liabilities, recognising the difference in retained earnings amounting to INR 2.16 million. Detailed bifurcation of lease liability & right-of-use assets is given below:

When measuring lease liabilities, the Company discounted lease payments using its incremental borrowing rate at 1 April 2019. The weighted-average rate applied is 11.1%.

The maturity analysis of lease liabilities is disclosed under Note 44C.

**i) A quantitative sensitivity analysis for significant assumptions is shown as follows:**  
Sensitivity analysis indicates the influence of a reasonable change in certain significant assumptions on the outcome of the present value of obligation. Sensitivity analysis is done by varying (increasing/ decreasing) one parameter by 50 basis points (0.5%).

**(a) Impact of change in discount rate when base assumption is decreased / increased by 50 basis points**

Discount rate	Present value of obligation	
	31 March 2023	31 March 2022
Increase by 0.5%	89.95	83.37
Decrease by 0.5%	100.25	93.35

**(b) Impact of change in compensation levels when base assumption is decreased / increased by 50 basis points**

Salary increment rate	Present value of obligation	
	31 March 2023	31 March 2022
Increase by 0.5%	99.62	92.61
Decrease by 0.5%	90.46	83.93

**(c) Impact of change in withdrawal rate when base assumption is decreased / increased by 1000 basis points**

Withdrawal rate	Present value of obligation	
	31 March 2023	31 March 2022
Increase by 10%	95.72	88.92
Decrease by 10%	94.02	87.33

The above sensitivity analyses have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the reporting date. In practice, generally it does not occur. When we change one variable, it affects to others. In calculating the sensitivity, project unit credit method at the end of the reporting period has been applied.

**BVG India Limited****Notes forming part of the standalone financial statements (continued)***(All amounts are in Indian Rupees million)***38 Employee benefits (continued)**

The method and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous year.

The average duration of the defined benefit obligation is 12.60 years (March 31, 2022 - 13.12 years).

The Company makes payment of liabilities from its cash and cash equivalents balances whenever liability arises.

The expected maturity analysis of the undiscounted gratuity benefit is as follows:

Defined benefit obligations	Amount (in million)
Within 1 year	6.60
1-2 year	5.61
2-3 year	5.10
3-4 year	5.98
4-5 year	6.01
Year 6 to Year 10	36.23
	<b>65.53</b>

The future accrual is not considered in arriving at the above cash-flows.

**Risk exposure**

These defined benefit plans expose the Company to actuarial risks such as longevity risk, currency risk, interest rate risk and market risk.

**II. For workers:**

The scheme is a non-contributory defined benefit arrangement providing gratuity benefits expressed in terms of final monthly salary and service. The Company's gratuity plan is unfunded. In accordance with the Standard, the disclosures relating to the Company's gratuity plan are provided below:

**BVG India Limited****Notes forming part of the standalone financial statements (continued)***(All amounts are in Indian Rupees million)***42 Financial instruments: Fair values and risk management (continued)****C Financial risk management policy and objectives**

The Company's principal financial liabilities comprise of borrowings, trade payables and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations. The Company's principal financial assets include investments, loans, trade receivables, cash and cash equivalents, other bank balances and other financial assets that is derived directly from its operations.

The Company's risk management is carried out by the management under policies approved by the board of directors. The Company's treasury identifies, evaluates and hedges financial risks in close co-operation with the Company's operating units. The board provides written principles for overall risk management, as well as policies covering specific areas such as foreign exchange risk, credit risk, and liquidity risk. The Company, through its training and management standards and procedures, aims to maintain a discipline and constructive control environment in which all employees understand their roles and obligations. The Company is not exposed to interest rate risk since the Company has fixed interest rate borrowings.

In order to minimise any adverse effects on the financial performance of the Company, it has taken various measures. This note explains the source of risk which the entity is exposed to and how the entity manages the risk and impact of the same in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, other bank balances, trade receivables, loans, other financial assets measured at amortised cost.	Ageing analysis, external credit rating (wherever available)	Diversification of bank deposits, credit limits and letters of credit
Liquidity risk	Borrowings, trade payables and other financial liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk	Recognised financial assets and liabilities not denominated in Indian rupee (INR)	Sensitivity analysis	Management follows established risk management policies.

**(A) Credit risk**

Credit risk in case of the Company arises from cash and cash equivalents, deposits with banks, loans, other financial assets and credit exposures to customers including outstanding trade receivables.

**Credit risk management**

Credit risk arises from the possibility that counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses the reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forward looking information such as:

- (i) Actual or expected significant adverse changes in business,
- (ii) Actual or expected significant changes in the operating results of the counterparty,
- (iii) Financial or economic conditions that are expected to cause a significant change to counterparty's ability to meet its obligations,
- (iv) Significant increases in credit risk on other financial instruments of the same counterparty,
- (v) Significant changes in the value of collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements.

The Company provides for lifetime Expected Credit Loss (ECL) in case of trade receivables. In case of all other financials assets, the Company applies 12-month expected credit loss model. The Company uses an allowance matrix to measure the expected credit loss of trade receivables.

**BVG India Limited****Notes forming part of the standalone financial statements (continued)***(All amounts are in Indian Rupees million)***42 Financial instruments: Fair values and risk management (continued)****Expected credit loss for receivables**

Under Indian GAAP, provision for doubtful debts is recognised on an incurred credit loss model. Under Ind AS, such provision is recognised on an expected credit loss model.

The Company uses a provision matrix to determine impairment loss of its receivables. The provision matrix is based on its historically observed default rates over the expected life of the receivables. At every reporting date, the historically observed default rates are updated, and changes in estimates are analysed.

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and loans and advances. The Company's customer profile include state and central government bodies, public sector enterprises, state owned companies and private customers. General payment terms entail monthly progress payments with a credit period ranging from 30 to 180 days and certain retention money to be released at the end of the project. In some cases retentions are substituted with bank/ corporate guarantees. The Company has a detailed review mechanism of overdue customer receivables at various levels within organisation to ensure proper attention and focus for realisation. Credit risk on trade receivables and unbilled work-in-progress is limited as the customers of the Company mainly consist of the government promoted entities having a strong credit worthiness. The credit period considered in the expected credit loss model for such entities is based on the past trend of receipts. The provision matrix takes into account available external and internal credit risk factors such as Company's historical experience for customers.

**BVG India Limited****Notes forming part of the standalone financial statements (continued)***(All amounts are in Indian Rupees million)***42 Financial instruments: Fair values and risk management (continued)****(B) Liquidity risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company aims to maintain the level of its cash and cash equivalents at an amount in excess of expected cash outflows on financial liabilities (other than trade payables) over the next six months. The Company also monitors the level of expected cash inflows on trade receivables and loans together with expected cash outflows on trade payables and other financial liabilities. In addition, the Company's liquidity management policy involves considering the level of liquid assets necessary to meet the expected cash flows, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

**BVG India Limited****Notes forming part of the standalone financial statements (continued)***(All amounts are in Indian Rupees million)***42 Financial instruments: Fair values and risk management (continued)****C Financial risk management policy and objectives (continued)****(C) Market risk**

Market risk is the risk that changes in market prices – such as foreign exchange rates and interest rates – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Company is exposed to currency risk to the extent that there is a mismatch between the currencies in which sales and purchases are denominated. The Company evaluates exchange rate exposure arising from foreign currency transactions and the Company follows established risk management policies to mitigate the risk.

**43 Capital management****Risk management**

The Company's objectives when managing capital are to

-safeguard its ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, and  
-maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. Consistent with others in the industry, the Company monitors capital on the basis of the following ratio: Net debt (total borrowings net of cash and cash equivalents) divided by total 'equity' (as shown in the balance sheet).

#### **46 Standards (including amendments) issued but not yet effective**

The Ministry of Corporate Affairs ("MCA") has notified Companies (Indian Accounting Standard) Amendment Rules, 2023 dated March 31, 2023 to amend certain Ind ASs which are effective from April 01, 2023. Below is a summary of such amendments:

##### **1 Ind AS 1 – Presentation of financial statements**

The MCA issued amendments to Ind AS 1, providing guidance to help entities meet the accounting policy disclosure requirements. The amendments aim to make accounting policy disclosures more informative by replacing the requirement to disclose 'significant accounting policies' with 'material accounting policy information'. The amendments also provide guidance under what circumstance, the accounting policy information is likely to be considered material and therefore requiring disclosure. The amendments are effective for annual reporting periods beginning on or after 01 April 2023. The Company is currently revisiting their accounting policy information disclosures to ensure consistency with the amended requirements.

##### **2 Ind AS 8 – Accounting policies, changes in accounting estimates and errors**

The amendment to Ind AS 8, which added the definition of accounting estimates, clarifies that the effects of a change in an input or measurement technique are changes in accounting estimates, unless resulting from the correction of prior period errors. These amendments clarify how entities make the distinction between changes in accounting estimate, changes in accounting policy and prior period errors. The distinction is important, because changes in accounting estimates are applied prospectively to future transactions and other future events, but changes in accounting policies are generally applied retrospectively to past transactions and other past events as well as the current period. The amendments are effective for annual reporting periods beginning on or after April 01, 2023. The amendments are not expected to have a material impact on the Company's financial statements.

##### **3 Ind AS 12 – Income Taxes**

The amendment to Ind AS 12, requires entities to recognise deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. They will typically apply to transactions such as leases of lessees and decommissioning obligations and will require the recognition of additional deferred tax assets and liabilities.

The amendment should be applied to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, entities should recognise deferred tax assets (to the extent that it is probable that they can be utilised) and deferred tax liabilities at the beginning of the earliest comparative period for all deductible and taxable temporary differences associated with:

- right-of-use assets and lease liabilities, and
- decommissioning, restoration and similar liabilities, and the corresponding amounts recognised as part of the cost of the related assets.

The cumulative effect of recognising these adjustments is recognised in retained earnings, or another component of equity, as appropriate. Ind AS 12 did not previously address how to account for the tax effects of on-balance sheet leases and similar transactions and various approaches were considered acceptable. Some entities may have already accounted for such transactions consistent with the new requirements. These entities will not be affected by the amendments.

##### **4 The other amendments to Ind AS notified by these rules are primarily in the nature of clarifications.**
