However, The Securities and Exchange Board of India (“SEBI”) had issued 5 (five) Show Cause Notices to the Company in October 2020, one as a listed entity, one as Promoter and a Shareholder of Ashoka Viniyoga Limited (“AVL”), three others as Shareholder of Sahu Jain Ltd (“SJL”), Combine Holdings Ltd (“CHL”) and PNB Finance & Industries Ltd (“PNBFIL”) respectively alleging violation of certain provisions of the SEBI Act, 1992 and regulations thereunder.

In the case of AVL, SJL, and CHL, SEBI had accepted the Company’s applications under the SEBI (Settlement Proceedings) Regulations, 2018 to settle such proceedings without admitting or denying any findings of fact and conclusions of law. Upon an aggregate payment of a sum of ₹ 470.10 lakhs by the Company and subsequent Settlement Orders dated September 7, 2022 issued by SEBI, these proceedings stood settled.

In the case of (i) the Company as a listed entity, as well as (ii) a Shareholder of PNBFIL, both listed at non-operational Calcutta Stock Exchange, however, SEBI rejected the Company’s applications under the Settlement Regulations in December 2022 and thereafter issued Adjudication Orders on March 28, 2023. In the case of (ii) above, besides levying a monetary penalty of ₹ 141 lakhs on the Company and directing the Company to disclose itself as one of the Promoters of PNBFIL, the said Order also restrained the Company from accessing capital market and prohibited from buying or selling of securities or otherwise dealing in securities (including Mutual Funds), until MPS compliance is achieved by PNBFIL. Both the Adjudication Orders were challenged by the Company before the Securities Appellate Tribunal (SAT) and vide its Orders passed on April 26, 2023, SAT had stayed the effect and operation of the SEBI Orders referred above subject to payment of 25% of the levied penalty(ies) by the Company. The payment for the said 25% penalty has been made to SEBI by the Company. The matter is sub-judice as on date.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Macro Economic View

The global economy demonstrates resilience and fortitude. However, it faces multiple challenges, including persistently high inflation, tight monetary and financial conditions, escalating geopolitical tensions, increasing geoeconomic fragmentation, disruptions in key global shipping routes, substantial public debt burdens, and financial stability risks. Global financial markets are on edge, experiencing recurrent bouts of volatility as incoming data heighten uncertainty regarding the monetary policy trajectories of major central banks.

Amidst these global challenges, the Indian economy has maintained its resilience. Supported by strong domestic demand and robust macroeconomic fundamentals, India has emerged as the fastest-growing major economy in the world for the financial year 2023-24. This growth is driven by an upturn in the investment cycle, a broad-based revival in the manufacturing and services sectors, government-led capital expenditure initiatives, upbeat business and consumer sentiments, and strong corporate and bank balance sheets, all contributing to sustained growth momentum.

Industry Developments

During the financial year 2023-24, Indian financial markets displayed orderly movements despite adverse global spillovers from tightening global financial conditions, the uncertain monetary policy trajectory of major systemic economies, volatile crude oil prices, and lingering geopolitical tensions. Money market rates exhibited reduced volatility. Domestic Government Securities (G-sec) yields experienced two-way movements. The Indian Rupee (INR) demonstrated stability. The Indian equity market reached new peaks, and resource mobilization in the primary markets gained momentum.

The capital and asset quality of banks and Non-Banking Financial Companies (NBFCs) remain healthy, supporting the growth in bank credit and domestic economic activity. Pre-emptive regulatory measures aimed at curbing excessive consumer lending, bank lending to NBFCs, and investments in alternate investment funds (AIFs) are expected to mitigate the build-up of potential stress in the balance sheets of financial intermediaries and contribute to financial stability. While domestic banks and NBFCs have exhibited resilience to interest rate risk, banks may need to address risks associated with both trading and banking books. Accordingly, the Reserve Bank of India (RBI) is striving to make its regulations more principle-based, activity-oriented, and proportionate to the scale of systemic risk, rather than entity-oriented.

Company Performance

Camac Commercial Company Limited ('the Company') is registered with the Reserve Bank of India (RBI) as a non-deposit accepting Non-Banking Financial Company (NBFC). The Company is an investment company with no customer interface. As per RBI's 'Scale Based Regulations' (SBR), the Company shall be classified as NBFC- Base Layer (NBFC-BL) as the Company has no public deposits and no customer interface. Since the Company does not carry a Type-I certificate, required for companies having no public deposits and no customer interface, RBI has classified the Company as NBFC - Middle Layer (NBFC-ML) due to its asset size

The Company is listed with the Calcutta Stock Exchange and the Company's investment portfolio includes mutual funds, bonds, non-convertible debentures (NCDs), equity shares of both quoted and unquoted companies, and deposits.

The Company has earned a net profit of Rs. 93.48 lakhs during the financial year 2023-2024. The Company has generated its major income for this year from interest income on investments in bonds & deposits, and on sale of investments in debt mutual funds.

Opportunities

The Reserve Bank of India (RBI) has been continually strengthening the supervisory framework for Non-Banking Financial Companies (NBFCs) to ensure their sound and healthy functioning and to mitigate excessive risk-taking. In recent times, the RBI has issued several new guidelines aimed at enhancing the regulatory oversight and risk management practices of NBFCs.

Threats

The prevailing uncertainties and volatility in the financial markets pose ongoing threats to organizational performance. Nevertheless, the Company's attributes of foresightedness and focused market analysis have effectively countered these threats, ensuring robust performance despite adverse conditions.

Risk and Concern

Your Company is exposed to standard industry risks, including interest rate risk, market risk, and operational risk. To mitigate these risks, your Company invests surplus funds in growth schemes that primarily seek to generate long-term capital appreciation. These investments are made prudently, focusing on a portfolio comprised substantially of high-quality securities and large-cap companies.

Internal Financial Control System and their adequacy

The Company upholds a strong belief in the system of internal controls and has established comprehensive checks and controls at various operational levels. These measures ensure effective oversight and management of the Company's operations, thereby maintaining the integrity and reliability of its financial and operational processes.

Financial condition

Please refer to the Standalone and Consolidated financial statements in this Annual Report for detailed schedules and notes. The key highlights of the financial statements for the year are as follows:

Material developments in human resources/industrial relations, including number of people employed

The Company is committed to providing a conducive working environment and continually strives to align with the prevailing economic conditions. This focus includes enhancing employee efficiency through measures such as restructuring compensation and improving working conditions.

evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

Emphasis of Matter

We draw attention to the following matters in the Notes to the Standalone Ind AS Financial Statements:

Refer to Note No. 27 of the Accompanying Standalone Financial Statements, the company has received final orders from SEBI dated March 28, 2023. Under the said orders in the matter of the company, apart from levying monetary penalties as referred in Note No. 27, SEBI directed the Corporate Shareholders (viz: Ashoka Viniyoga Ltd., Artee Viniyoga Ltd, PNB Finance and Industries Ltd., Combine Holding Ltd., and Punjab Mercantile & Traders Ltd) and Individual Shareholders (viz: Samir Jain and Meera Jain), to make complete and proper disclosures as Promoters of the Company. Further, the order restrained them from certain activities until Minimum Public Shareholding (MPS) of 25% is achieved in the company.

The company has preferred an appeal against these orders in Securities Appellate Tribunal (SAT). The SAT vide its order dated April 26, 2023 issued stay orders on the operation of the SEBI orders upon payment of 25% of penalty amount.

Our Opinion is not modified in respect of the above matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters are addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the following key audit matters to be communicated in our report:

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Director is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SA'S will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risk of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial control system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our because the adverse of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

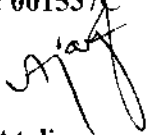

OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial Control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India".

Camac Commercial Company Limited

Notes to the Financial Statements for the year ended March 31, 2024

1.3 Summary of Material Accounting Policies

This note provides a list of the material accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

1.3.1 Revenue Recognition

Income is recognized on accrual basis to the extent that it is probable that the economic benefits will flow to the Company and can be reliably measured. Where significant uncertainty exists on realization of revenue at the time of accrual, underlying revenue is not recognized to that extent.

• Interest income

Interest income from debt instruments is recognised using effective interest rate method (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability.

When calculating the EIR, the company estimates the expected cash flows by considering all the contractual terms of the financial instruments (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Interest income on Bank Deposits and other non -financial deposits is recognized on accrual basis taking into account, the amount invested/ outstanding / and the rate of interest applicable.

Interest on tax refund is accounted for on receipt basis.

• Dividend income

Dividends are recognised in the statement of profit and loss only when the right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the company, and the amount can be measured reliably.

Dividend income from Equity Instruments measured at fair value through Other Comprehensive income has been recognised in the statement of profit and loss.

Interest and Dividend is included under Other Income in Statement of Profit and Loss.

1.3.2 Property, plant and equipment:

• Recognition and measurement

Property, Plant & Equipment (PPE) is stated at cost net of accumulated depreciation and accumulated impairment losses, if any. The Cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable expenses for bringing the assets to their present location and conditions for its intended use.

When parts of an item of PPE have different useful lives, they are accounted for as separate items (major components) of PPE. All other expenses on an existing PPE including day to day repair and maintenance expenditure and cost of replacing parts (other than major components), are charged to the statement of profit and loss for the period during which such expenses are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each reporting date are disclosed under 'Other Non -Financial assets'.

Camac Commercial Company Limited

Notes to the Financial Statements for the year ended March 31, 2024

• Disposal

An item of PPE is derecognised upon disposal or when no future benefits are expected from its use or disposal. Gains and losses on disposal of an item of PPE are determined by comparing the proceeds from disposal with the carrying amount of PPE, and are recognised net within other income/ expenses in the statement of profit and loss.

• Depreciation

Depreciation on Property, Plant & Equipment (PPE) is provided on written down value as per rates arrived at based on useful life and manner prescribed under Schedule II of the Companies Act, 2013.

In case Addition /Deletion of PPE during the year, Depreciation on those PPEs have been provided for on a pro rata basis from the date of such addition or, as the case may be, up to the date of deletion of such asset.

1.3.3 Impairment of Property, Plant and Equipment and Other Non –financial assets

The company assesses at each balance sheet date whether there is any indication that an asset or cash generating unit (CGU) may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal or its value in use.

Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

An impairment loss, if any, is charged to Statement of Profit and Loss in the year in which the assets is identified as impaired. The impaired loss recognized in prior accounting periods is reversed / adjusted, if there has been a change in the estimate of the recoverable amount.

1.3.4 Cash and cash equivalents:

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

1.3.5 Fair value measurement:

The Company measures financial instruments such as Investments in Mutual Funds and in Equity shares (other than investment in Associates) at fair value at each reporting (Balance sheet) date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

Camac Commercial Company Limited

Notes to the Financial Statements for the year ended March 31, 2024

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to fair value measurement as a whole :

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

1.3.6 Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

a. Initial Recognition and Measurement

Financial assets are initially recognised on the trade date i.e. the date that the Company becomes a party to the contractual provisions of the instrument.

On initial recognition, a financial asset is recognised at fair value. Financial Assets which are not at fair value through Profit and loss, are at fair value plus transaction costs that are directly attributable to the acquisition of such Financial Assets. Transaction costs of those financial assets carried at "fair value through profit or Loss" are expensed in Statement of profit and loss.

Financial Assets are classified at the initial recognition as Financial Assets measured at Amortised Costs or at Fair value.

b. Subsequent Measurement

For subsequent measurement, financial assets are broadly classified in two broad categories:

- Financial Assets carried at Amortised Cost,
- Financial Assets at Fair Value [Either through Other Comprehensive income (FVTOCI) Or through Profit or Loss (FVTPL)]

Camac Commercial Company Limited

Notes to the Financial Statements for the year ended March 31, 2024

For assets classified as "at Fair value", gains and losses are either recognised in Statement of profit and loss or recognised in Other Comprehensive Income, as elected. For Assets classified as "at Amortised Cost", this will depend on the business model and contractual terms of the cash flows.

i) Financial Assets carried at Amortised Cost :

A Financial Asset is measured at Amortised Cost if it meets the following two conditions:

- (a) Business Model Test: The objective of the company's business model is to hold the financial assets to collect contractual cash flows.
- (b) Cash flow characteristic Test: The contractual terms of the Financial Asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial Assets i.e. Debentures, Bonds and Corporate Deposits etc. meeting the above conditions are measured at Amortised Cost and Interest income from such financial assets has been recognised using the effective Interest rate.

ii) Financial Assets at fair value through Other Comprehensive Income (FVTOCI) :

A Financial Asset is subsequently measured at fair value through Other Comprehensive Income if :

- (i) The objective of the business model is achieved by both collecting contractual cash flows and selling Financial Assets and
- (ii) The contractual terms of the Financial Asset represent solely payments of principal and interest on the principal amount outstanding.

The Dividend Income on Financial Assets at FVTOCI is recognised under Profit or Loss. The company's Investments in Financial Assets i.e. Debt Instruments being Debt based Mutual Funds are measured at fair value through Other Comprehensive Income (OCI) and Fair value changes on these financial assets are recognised in OCI.

On derecognition/ sale of Investments measured at FVTOCI, the Fair value changes (on other than Equity Instruments measured at FVTOCI) in OCI, are subsequently reclassified to the statement of profit and loss.

iii) Financial Assets at fair value through Profit or Loss (FVTPL) :

A Financial Asset which is not classified in any of the above categories are measured at fair value through Profit or Loss. Equity instruments which are held for trading are required to measure at FVTPL.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of Profit and Loss.

Equity Instruments at Fair value through Other Comprehensive Income

For Equity Instruments, the company may make an irrevocable election to present subsequent changes in the fair value through Other Comprehensive Income. The Company makes such election on an instrument-by-instrument basis.

For investments in Equity Shares (not held for trading and other than Investment in Associates), the Company has made an irrevocable election to account for these at Fair value through other comprehensive income (FVTOCI).

Camac Commercial Company Limited

Notes to the Financial Statements for the year ended March 31, 2024

If the company decides to classify an Equity Instruments as at FVTOCI, then all fair value changes on such instruments excluding dividend income, are recognised in the Other Comprehensive income (OCI). Dividend on equity instrument measured at FVTOCI is recognised at Statement of Profit and Loss.

Fair Value changes on these equity instruments never recycled (not subsequently transferred/reclassified) from OCI to Profit or Loss, however on de-recognition / sale of the equity instruments measured at FVTOCI, cumulative Gain or Losses are transferred/ reclassified within Equity i.e. Balance of Cumulative gain or Losses transferred to Retained earnings.

c. Investments in Associates

The Company's Investments in Associates are recognised at Cost as per Ind AS 27. Investments in associates are carried at cost less accumulated impairment losses, if any. Cost represents amount paid for acquisition of the said investments.

The company assesses at the end of each reporting period, if there are any indication that the said investments may be impaired. If impairment exists, the company estimates the recoverable value/ amount of the investments and provides for impairment, if any i.e. the deficit in the recoverable amount / value over cost. The impairment loss, if any, recognises in the statement of profit and loss.

On disposal of investments in Associates, the difference between net disposal proceeds and the carrying amounts are recognised in the Statement of Profit and Loss.

d. Impairment of financial assets

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of Financial Assets other than those measured at FVTPL.

The Company assesses on a forward looking basis the expected credit losses associated with its financial assets considered for ECL. The impairment methodology applied depends on whether there has been a significant increase in credit risk and if so, assess the needs to provide for the same in the statement of Profit and Loss.

The company assess impairment based on Expected credit losses (ECL) model for the following :

- (1) Financial Assets measured at Amortised Cost,
- (2) Financial Assets measured at FVTOCI,
- (3) Other Financial Assets like Trade/ Other receivables.

The Company follows "Simplified Approach" for recognition of Impairment loss allowance on trade receivables. For application of "Simplified Approach" the company does not require to track changes in credit risk instead the company uses the provision matrix to determine loss allowance on Trade / Other receivables.

ECL is the difference between all contractual cash flows that are due to the company in accordance with contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original EIR.

The Company has investment in Debt Instruments i.e. Fixed income securities being Bonds, Corporate Deposits, Debentures etc.. The risk parameters like tenor, the probability of default, tracking of ratings etc. for each of these instruments/ Issuer ratings etc. is considered in estimating probable credit losses over balance tenor of these instruments.

Camac Commercial Company Limited

Notes to the Financial Statements for the year ended March 31, 2024

ECL impairment loss allowance (or reversal) recognized during the period is recognized as expense / income in the Statement of Profit and Loss.

However, ECL impairment loss allowance (or reversal) if any, on Equity Shares measured at Fair value through OCI (FVTOCI) has been recognized through other comprehensive income.

ECL is presented as an allowance i.e. as an integral part of the measurement of those assets in the Balance sheet. ECL reduces the net carrying amount, unless the financial asset meets write off criteria, the company does not reduce impairment allowance from the Gross carrying amount.

Financial Liabilities

a. Initial Recognition and Measurement

All Financial Liabilities are recognized at fair value and in case of borrowings and Payables, net of directly attributable transaction costs.

The company's financial liabilities include Trade/ other payables having short maturities.

b. Subsequent Measurement

Financial Liabilities being Interest bearing Borrowings (from Banks/others) if any, are carried at amortized cost using the effective interest method.

For trade and other financial liabilities maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition of Financial Assets and Liabilities

Financial Assets

A Financial assets is derecognised by the Company only when:

- (i) The contractual rights to the cash flows from the Financial Asset expired OR
- (ii) The Company has transferred the right to receive cash flow from financial assets and where the entity has transferred the assets, the company evaluates whether it has transferred substantially all risk and rewards of ownership of such financial assets. OR
- (iii) In any other case, transfer qualifies for other de-recognition criteria under Ind- AS 109.

Financial Liabilities

A Financial liability (or a part thereof) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expired.

Reclassification of Financial Assets and Liabilities

The company does not reclassify its financial assets subsequent to initial measurement, apart from exceptional circumstances and as permitted. Financial Liabilities are not reclassified.

Off setting

Financial assets and liabilities are off set and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right

Camac Commercial Company Limited

Notes to the Financial Statements for the year ended March 31, 2024

must not be contingent on future events. It must be enforceable in the normal course of business and also in the event of default, insolvency or bankruptcy of the Company or the counterparty.

1.3.7 Employee benefits:

• Short-term employee benefits

Employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and are recognised in the period in which the employee renders the related service.

• Post-employment benefits

Defined contribution plans

Employees of the Company are entitled to receive benefits under the Provident Fund, which is a defined contribution plan. Both employees and employer make monthly contributions to the plan at a pre determined rate of employee's basic salary. These contributions to Provident Fund are administered and managed by a recognized Provident Fund Trust under Multi Employer Plans. Contributions by Company to Provident Fund are expensed in the Statement of Profit and Loss, when the contributions are due.

Defined benefit plans

The employees' gratuity scheme is a defined benefit plan. The present value of the obligation under such defined benefit plans is determined based on actuarial valuation using the projected unit credit method.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans, is based on the market yields on government securities as at the reporting date, having maturity periods approximating to the terms of related obligations.

Remeasurements, comprising of actuarial gains and losses, are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income (OCI) in the period in which they occur. Remeasurements are not reclassified to the statement of profit and loss in subsequent periods.

When the benefits of the plan are changed or when a plan is curtailed, the resulting change in benefits that relates to past service or the gain or loss on curtailment is recognised immediately in the statement of profit and loss. Net interest is calculated by applying the discount rate to the net defined benefit liability. The company recognises gains/ losses on settlement of a defined plan when the settlement occurs.

Other long-term employee benefits (Compensated leaves)

The employees can carry-forward a portion of the unutilized accrued leave and utilize it in future service periods or receive cash compensation on resignation/termination of employment.

Accumulated Leaves, which is expected to be utilised within the next 12 months, is treated as Short term employee benefit. Since a substantial part of the compensated leaves do not fall due wholly within 12 months after the end of the period in which the employees render the related service and are also not expected to be utilized wholly within 12 months after the end of such period, the benefit of such leaves is classified as a long-term employee benefit.

Camac Commercial Company Limited

Notes to the Financial Statements for the year ended March 31, 2024

The Company records an obligation for such compensated absences in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method at year end.

Remeasurements, comprising of actuarial gains and losses, are recognised immediately in the Statement of profit and loss.

1.3.8 Income tax:

Income tax expense comprises Current Tax, Deferred tax and Earlier Year Tax, if any.

Current and deferred tax is recognised in profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the current tax / deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

• Current tax

Current tax Expenses or credit for the period is the tax payable on the current period's taxable income based on the tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current tax assets and liabilities are offset only if there is a legally enforceable right to set it off the recognised amounts and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

• Deferred tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses/tax credits only if it is probable that future taxable amounts will be available to utilise those temporary differences/credits and losses.

Deferred tax assets and liabilities are off set when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

The carrying amount of Deferred Tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilised. Unrecognised deferred Tax Assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

1.3.9 Provisions and contingent Liabilities:

The company creates a provision when there is present obligation as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation.

Camac Commercial Company Limited

Notes to the Financial Statements for the year ended March 31, 2024

Provisions are measured at the present value of management's best estimates of the expenditure required to settle the present obligation at the end of the reporting period. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risk specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as interest expense.

Contingent liability is not recognised but disclosed in the case of :

- (i) A present obligation that arising out of past events, when it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation,
- (ii) A present obligation that arising out of past events , when no reliable estimate of the amount is possible,
- (iii) A possible obligation arising from past events, unless the probability of outflow of resources is remote.

Provisions and Contingent liabilities are reviewed at each balance sheet date.

1.3.10 Earnings per share (EPS):

Basic earnings per share is calculated by dividing the net profit/loss for the year attributable to equity shareholders of the company by the weighted average number of equity shares outstanding during the financial year.

The weighted average number of equity shares outstanding during the year/period and all periods presented is adjusted for events, such as bonus equity shares, other than the conversion of potential equity shares that have changed the no. of equity shares outstanding without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit and loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the financial year, is adjusted for the effects of all dilutive potential equity shares.

Note 1

The Securities and Exchange Board of India ("SEBI") had issued 5 (five) Show Cause Notices to the Company in October 2020, one as a listed entity, one as Promoter and a Shareholder of Ashoka Viniyoga Limited ("AVL"), three others as Shareholder of Sahu Jain Ltd ("SJL"), Combine Holding Ltd ("CHL") and PNB Finance & Industries Ltd ("PNBFIL") respectively alleging violation of certain provisions of the SEBI Act, 1992 and regulations thereunder.

In the case of AVL, SJL, and CHL, SEBI had accepted the Company's applications under the SEBI (Settlement Proceedings) Regulations, 2018 to settle such proceedings without admitting or denying any findings of fact and conclusions of law. Upon an aggregate payment of a sum of Rs. 470.10 lakhs by the Company and subsequent Settlement Orders dated September 7, 2022 issued by SEBI, these proceedings stood settled.

In the case of (i) the Company as a listed entity, as well as (ii) a Shareholder of PNBFIL, both listed at non-operational Calcutta Stock Exchange, however, SEBI rejected the Company's applications under the Settlement Regulations in Dec. 2022 and thereafter issued Adjudication Orders on 28th March 2023. Under the said Orders, in the case of (i) above, SEBI levied Rs 1100 lakhs monetary penalty on the Company, and directed the Corporate Shareholders (Viz: AVL, Artee Viniyoga Ltd, PNBFIL, CHL, and Punjab Mercantile & Traders Ltd) and Individual Shareholders (viz: Samir Jain and Meera Jain), besides levying certain penalties on each of them, to make complete and proper disclosures as Promoters of the Company and restrained them from certain activities until Minimum Public Shareholding (MPS) of 25% is achieved in the Company. In the case of (ii) above, besides levying a monetary penalty of Rs 141 lakhs on the Company and directing the Company to disclose itself as one of the Promoters of PNBFIL, the said Order also restrained the Company from accessing capital market and prohibited from buying or selling of securities or otherwise dealing in securities (including Mutual Funds), until MPS compliance is achieved by PNBFIL.

Both the Adjudication Orders were challenged by the Company before the Securities Appellate Tribunal (SAT) and vide its Orders passed on 26th April 2023, SAT had stayed the effect and operation of the SEBI Orders referred above subject to payment of 25% of the levied penalty(ies) by the Company. The Company had made the requisite payment to SEBI [25 % i.e. Rs. 310.25 Lakh] as per the said SAT orders. The matter is sub-judice as on date.

The above referred "Settlement amount paid for Rs. 470.10 lakhs had been disclosed under "Note -22 : Exceptional Items (Expense)".

Note-31 : Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in a orderly transactions in the principal (Or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) , regardless of whether that price is directly observable or estimated using a valuation technique.

The following methods and assumptions are used to estimate the fair value :

- (a) The fair value of quoted equity Shares is derived from quoted market prices in active markets.
- (b) The fair value of Unquoted Equity shares (FVTOCI financial instruments) is derived as per Level 3 techniques, in case Observable market data is not available.
- (c) The fair value of Mutual Funds is derived from the available declared /Quoted NAV of units.
- (d) Assets held for collection of contractual cash flow where cash flows represent solely payment of Principle and Interest like Bonds/ Debentures /Corporate Deposit are measured at Amortised Cost. Interest income from these financial assets is calculated using the effective Interest rate method.

The management has assessed that cash and cash equivalents, Other Receivables (Financial assets) and trade/other payables are approximate at their carrying amounts largely due to the short term maturities of these instruments.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted (unadjusted) prices /declared NAVs in active markets for identical assets or liabilities.

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: inputs which are not based on observable market data.

B. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- i) Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. - ii) Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent company has adequate internal financial controls system in place and the operating effectiveness of such controls.

Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- v) Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- vi) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. Notes to the Consolidated Financial Statements for the year ended March 31, 2024

- In a case where the associate also holds more than 20% of equity of the reporting Company (i.e. Reciprocal interests or cross-holdings), the consolidated accounts of the associate exclude the impact of holding of the Company in which it is getting consolidated.
- (ii) Under the equity method, an investment in associate is initially recognised in the consolidated balance sheet at Cost, thereafter the Carrying amount of Investments is adjusted to recognise the Company's share in net assets of the associates since the acquisition date i.e. post-acquisition. The Company's share in net assets i.e. Share of Post-acquisition profits/Loss and share in Post-acquisition Other comprehensive income.
 - (iii) The difference between the cost of investment in the associates and the share of net assets at the time of acquisition of shares in the associates is identified and disclosed in the consolidated financial statements as Goodwill or Capital Reserve as the case may be.
 - (iv) The Company's share of Profit or Loss of Associates is eliminated to the extent of unrealized profits and losses resulting from transactions between the Company and its associates to the extent of its share.
 - (v) Distributions received from an associate reduce the carrying amount of the investment.
 - (vi) When the Group's share of losses of an associate exceeds the Group's interest in that associate, the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.
 - (vii) The financial statements of all the associates used for the purpose of Consolidation are drawn up to the same reporting date as that of the Parent Company.
 - (viii) As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are prepared in the same manner as the Company's separate financial statements.
- (B) Aggregate share of Profit or loss and aggregate share of other comprehensive income of all associates respectively, have been disclosed separately on the face of Statement of Profit and Loss.
- (C) The carrying amount of investment in associates is reduced to recognize impairment, if any, when there is objective evidence of impairment.
- (D) Non-controlling interest represents that part of the Profit or Loss and Other Comprehensive income and net assets of Associates attributable to interests which are not owned, directly or indirectly, by the Parent Company.
- Since the Investment in Associates are accounted for using the Equity Method, wherein only Parent's share of Profit or Loss and Other Comprehensive income of the Associates are considered in the Consolidated financial statements of Group. Thus, Profit or Loss and Other Comprehensive income of the Group are wholly attributed to the owners of the Parent Company only.
- (E) Name of Associates along with Parent's holdings are given for all those, which are considered and included in the Consolidated Financial Statements:
