Management Discussion & Analysis Report

For the Financial Year Ended 31st March, 2025

(Pursuant to applicable provisions of the Companies Act, 2013 and general corporate governance practices)

1. Overview

East India Pharmaceutical Works Limited ("the Company"), established in 1936, is one of India's oldest pharmaceutical manufacturers, with a legacy rooted in ethical drug formulation and patient-focused care. The Company operates modern WHO-GMP compliant manufacturing facilities at Sarsuna and Durgapur, catering to both domestic and select international markets. With a robust product portfolio covering analgesics, antibiotics, hematinics, vitamins, gastrointestinal medicines, and Ayurvedic formulations, the Company remains committed to providing affordable and quality healthcare.

2. Global Economic and Industrial Outlook

The global economy witnessed moderate recovery in FY 2024-25, growing at an estimated 2.9%, amidst inflationary pressures, interest rate volatility, and supply chain disruptions. While advanced economies witnessed slower growth, emerging markets-particularly in Asia and Africa-demonstrated resilience. Geopolitical tensions and energy price fluctuations remained key macroeconomic concerns.

In the healthcare domain, increased investment in public health infrastructure, ageing populations, and chronic disease management continued to drive pharmaceutical consumption. The pharmaceutical industry globally is embracing digital transformation, personalized medicine, and AI-enabled drug discovery, with a marked shift toward value-based healthcare delivery.

3. Indian Economic and Pharmaceutical Industry Outlook

India remains among the fastest-growing major economies, with GDP projected at 6.8-7.0% in FY 2024-25. The Government's push towards 'Atmanirbhar Bharat', investment in digital health under the Ayushman Bharat Digital Mission, and supportive schemes like PLI (Production Linked Incentives) for APIs and medical devices have created a conducive environment for domestic pharmaceutical manufacturers.

The Indian pharmaceutical industry, valued at approximately INR 4.8 lakh crore, is expected to maintain a CAGR of 8-10%, driven by:

- 1 Enhanced affordability and accessibility of generics.
- 1 Growth in chronic therapies such as diabetes, cardiovascular, and mental health.
- 1 Increased demand for Ayurvedic, herbal, and immunity-boosting products.
- 1 Expanding exports to regulated and semi-regulated markets.

However, challenges persist in the form of input cost fluctuations, pricing constraints imposed by DPCO, stringent regulatory scrutiny, and continued dependence on Chinese imports for critical APIs.

4. Company Performance and Business Strategy

During FY 2024-25, the Company recorded steady operational performance, driven by growth in key product lines and expansion of marketing reach. The introduction of new products in the multivitamin and pediatric segments added depth to the Company's existing product portfolio.

Key highlights:

- 1 Stable domestic revenue led by sustained demand for Modern as well as Ayurvedic product segment.
- 1 Increased production capacity utilization at the Durgapur bulk drug unit.
- 1 The Company initiated digital engagement strategies to enhance interactions with healthcare professionals.

The Company continues to focus on product quality, compliance with evolving regulatory frameworks, and cost optimization through backward integration of APIs.

5. Opportunities and Threats

Opportunities:

- 1 Government initiatives promoting indigenous manufacturing and API self-reliance.
- 1 Rising demand for cost-effective branded generics in Tier II/III cities.
- 1 Product innovation in Ayurveda and wellness-based formulations.
- 1 Growth potential in African and South-East Asian export markets.

Threats:

- 1 Supply chain uncertainties for imported intermediates and excipients.
- 1 Escalating regulatory compliance requirements in export destinations.

Management Discussion & Analysis

- 1 Competition from large multinational corporations (MNCs) as well as cost-driven domestic players.
- 1 Risk of price capping on essential medicines under DPCO.

6. Risks and Concerns

The Company is exposed to typical industry risks such as:

- 1 Regulatory Risk: Compliance with changing national and international drug safety norms.
- 1 Pricing Risk: Impact of government policies on pricing controls.
- 1 Supply Chain Risk: Dependency on select suppliers for APIs and packaging materials.
- 1 Market Risk: Increasing competition and evolving prescribing patterns.

To mitigate these risks, the Company has instituted a risk management framework, which is reviewed periodically by the management as well as the Board of Directors.

7. Internal Control Systems and their adequacy

The Company has in place adequate internal control systems that ensure the integrity of financial reporting, compliance with laws and regulations, and operational efficiency. Internal audits are conducted by an independent firm, and findings are reviewed by the management for timely corrective action.

Key systems include:

- 1 ERP-enabled operations across inventory, production, and sales.
- 1 GMP-compliant manufacturing and quality assurance protocols.
- 1 Automated MIS enables real-time monitoring of key performance indicators.

8. Financial Performance Highlights (₹ in lakhs)

Auditors' Responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion

Auditors' Report

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1 Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 1 Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls
- 1 Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 1 Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 1 Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

Annexure – B

Annexure to the Independent Auditors' Report of even date on the Financial Statements of **East India Pharmaceutical Works Limited**

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **East India Pharmaceutical Works Limited** ("the Company") as of 31st March, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Report

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and according to the information and explanation given to us, the Company has, in all material respects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting, issued by the Institute of Chartered Accountants of India.

24 DISCLOSURE ON LEASED LAND

Company's Sarsuna factory is situated on a cluster of some individual lands of which few are owned and others on lease. There are total six leasehold lands. All leases expired during the financial year 2016-17, though all the leases contain automatic renewal clauses. Three lease deeds have been renewed. The company has filed suit for specific performance against three lessors. As one of the lease being renewed, suit filed in respect of the same are in process of withdrawal. One of the suits for specific performance is subjudice before the learned court. The other suit for specific performance has been dismissed and the counter claim made therein in such suit has been allowed. Steps are being taken to challenge those Orders. The company has made appropriate provision for lease rent for non-renewed portion of the leases considering same rate of rental as per the renewed leases. Further, Company's Durgapur factory is also situated on leasehold land obtained from the Govt. of West Bengal in the year 1965.
