From the Desk of the Chairman and Managing Director

It is with immense pleasure that I deliver this message to you on the occasion of our 29th Annual General Meeting of Maxvalue Credits & Investments Ltd. I am delighted to report that our company has achieved a respectable net profit of Rs. 10.41 crore for the fiscal year ending March 31, 2024. This marks a significant turnaround, reversing the trend of consecutive losses we faced in previous years due to external factors such as floods and the pandemic.

Our journey over the last fiscal year was marked by the efficient management of resources, the strategic realignment of our business portfolios, and the prompt repayment of our obligations to lenders who have maintained their trust and continuously supported us. The dedicated efforts of our employees have been sustained through adequate welfare measures and timely payment of their remuneration and rewards. I am proud to state that our company successfully repaid obligations to NCD holders and subordinate debt providers amounting to Rs. 372 crore during the last fiscal year, without a single day's delay.

We effectively managed our asset portfolios, including auto loans, gold loans, and micro-finance, through rigorous credit risk assessments and efficient collection mechanisms. This has resulted in an increase in our operating profit and allowed the company to register a remarkable profit of over Rs. 10 crore for the first time in its history. Additionally, we reduced our operating expenses by relocating to more cost-effective premises, merging unprofitable branches, and redeploying our workforce in line with the realignment of our asset portfolios.

Looking ahead, your company has set ambitious targets for the current financial year. We are confident in achieving these goals through exploring opportunities for bank financing, securing credit from prospective investors, and expanding our assets under management. We have also commenced operations in Tamil Nadu, with plans for further expansion in the near future.

As we continue our journey, we are optimistic about reaching new heights and delivering impressive results in the coming days. I would like to take this opportunity to extend my gratitude to our shareholders, regulators, the Board of Directors, our dedicated team of employees, and our valued clients for your unwavering support of the company.

We look forward to your continued cooperation and support.

**With best regards,
Manoj V R
Chairman and Managing Director**

CDSL e-Voting System – For Remote e-voting

THE INSTRUCTIONS OF SHAREHOLDERS FOR REMOTE E-VOTING:

Step 1:

Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

Step 2 :

Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

- (i) The voting period begins on <Date and Time> and ends on <Date and Time>. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of <Record Date> may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

(iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Less: Deferred Tax	-20,93,011.08	-1,74,80,340.24
Profit for the Year	10,41,21,581.78	-21,54,38,625.23

2. Dividend

Your directors have not recommended any dividends for the financial year 2023-24. Though the company had made profit, it is yet to get qualified for payment of dividend as per the applicable regulations.

3. Nature of Business and operations of the Company

To the extent that it is allowed for your business, the company offers loans such as Auto Loan, Gold Loan, Traders Loan, and Microfinance. In accordance with the guidelines set forth by the Reserve Bank of India, the company offers its clients investment opportunities in the form of fully secured Non-Convertible Redeemable Debentures and Subordinated Debts.

4. Economic Scenario

Banking credit growth over the last ten years has trailed systemic credit growth for a number of years, with NBFCs growing at a significantly faster rate. Nonetheless, the September 2018 default of IL&FS dealt a blow to the NBFCs. NBFCs, not having the advantage of size, rating, and/or parentage, had to grapple with a liquidity crisis as raising funding became difficult. After the IL&FS crisis, banks were initially supposed to take up the void left by NBFCs.

In light of the COVID-19 pandemic outbreak that occurred in 2020's fourth and first quarters of 2021, the difficulties faced by NBFCs and banks had gotten worse. More negatively impacted was the demand for NBFCs, and they also grew wary of lending to clients who had comparatively poorer credit histories. During the latter half of Fiscal Year 2021, the Indian economy appeared to be improving, as evidenced by the rise in credit.

The second wave of the COVID-19 pandemic in Fiscal 2022 caused a decline in credit demand in the first quarter of the year. Nonetheless, the credit recovery momentum continued, with retail credit rising 11.3% annually as of March 2022 and overall credit expanding by 9%. The situation and growth improved even more as the impact of COVID-19 subsided and vaccination rates increased.

The rate of credit growth accelerated in fiscal 2023 and is now comparable to pre-COVID levels. Systemic retail credit increased by 19.2% while overall credit is estimated to have grown by 13.3%. NBFC credit is expected to increase by 12%–14% between Fiscal 2023 and Fiscal 2025, according to CRISIL MI&A. The retail vertical, which includes the home, vehicle, and microfinance sectors, will propel the expansion of credit. A swift economic recovery is anticipated to fuel consumer demand in Fiscal 2024, resulting in NBFC growth that is robust. In addition, larger NBFCs are gaining market share as a result of organic consolidation. Furthermore, NBFCs with strong parentage that have funding advantages over other NBFCs will be the primary drivers of the non-banking industry's growth.

NBFCs, which had an AUM of less than Rs. 20,000,000 Lakh at the beginning of the century and approximately Rs.339,069,357 Lakh at the end of Fiscal 2023, have proven to be remarkably resilient and have grown in importance within the financial

MAXVALUE

sector ecosystem. In the fiscal years 2023 and 2025, CRISIL MI&A projects NBFC credit to expand at a 12–14% annual rate of growth. From 12% in Fiscal 2008 to 18% in Fiscal 2023, their portion of the total credit pie has grown, and in Fiscal 2024, it is expected to stay the same. Given their natural ability to provide last-mile funding and serve client segments that banks do not serve, CRISIL MI&A thinks NBFCs will continue to be a major player in the Indian credit market.

5. Business Outlook

The limitations that the Reserve Bank of India placed on your business on February 4, 2020, remain in effect. The company has complied with all regulations and operated within constraints for the last four years. The company's portfolio size decreased from Rs.562.26 crore on March 31, 2023, to Rs.437.95 crore on March 31, 2024.

The major portion of assets under management of the company constitutes vehicle loans and gold loans. The vehicle loan contributes 40.55%, and the gold loan contributes 32.26% as well to the asset under management. However, as the Board has recognized, the company has to focus on the gold loan, consumer loan, and business loan to make a better yield in the upcoming years, as adopted in the previous year. Initiatives to enter the company into co-lending and business correspondence arrangements are also under the consideration of the board, subject to regulatory approval.

6. Performance of the Company

The company's operations generated revenue of Rs.136.72 crore in FY 2023–24, down from Rs.154.89 crore in FY 2022–23. In tandem with this, the overall expenses for the financial year decreased as well, going from Rs.178.21 crore to Rs.126.53 crore. In the preceding fiscal year, a total of Rs.710.17 crore in loans were advanced under various loan schemes. As of March 31, 2024, the total amount of loans was Rs.437.95 crore, indicating a 22.11% decrease from the year before.

During 2023-24, your company repaid Rs.19.40 Cr towards redemption of matured NCDs and Rs.353.47 Cr towards matured subordinated debts. The company has raised Rs.20.79 Cr as NCD and Rs.125.28 Cr as subordinate debt as additional borrowing during the financial year 2023–24. The company made a gross profit of Rs.42.72 crore during 2023–24. After making the necessary non-cash appropriations such as provision for NPA (including additional provision), depreciation, etc., the net profit of the company for the financial year stood at Rs.10.41 Cr.

The overall CRAR and the Tier-I CRAR of the company stood at 29.79% and 19.64%, respectively.

7. Business Plans.

The future business plans of your company will focus on improving operational efficiency and achieving profitability. This will include improving branch profitability, closing down persistently loss-making branches, shifting to a low-cost branch concept, expanding branch network in profitable geographies, including expanding presence into more southern and Central Indian States, reviewing loan products from the yield angle and weeding out low-yielding schemes, improving interest yield and non-interest income, reducing NPAs to acceptable levels, etc.

The company will still have to deal with the redemption of NCDs and subordinated debts for the current fiscal year, 2024–2025. The Company will have to raise new borrowings through legal channels and inject new equity to replace the maturing funds. Liquidity management will therefore play a significant role in all of the company's future business plans. In addition, once the Reserve Bank lifts the supervisory restrictions, the company will have the necessary plans in place to take its business to the next level.

The company's current priorities are increasing branch and product profitability as well as recovering the amounts written off in prior years. The company sees replacing maturing borrowings as a welcome chance to significantly lower its funding costs and boost its margins. The business is also looking into other ways to borrow money from banks at a lower cost.

Your company will continue its efforts to reduce credit concentration risks by continually reviewing and rebalancing its loan portfolio. During the year, the share of two-wheeler loans was brought down from 53.90% as of March 2023 to 40.55% as of March 2024. On the other side, share of gold loans increased from 27.54% to 32.266%. The company, with the upward revision in the cap for microfinance loans by NBFCs, is focusing on profitability in the current financial year by expanding into this segment.

MAXVALUE

8. Branch Expansion.

As on March 31, 2024, the company had 76 branches in Kerala, 50 in Karnataka, and 9 in Andhra Pradesh. During the current fiscal, your company plans to open few more branches in potential areas of Tamil Nadu.

9. Resources

Subordinated Debts and Fully Secured Redeemable Non-Convertible Debentures continued to be the major sources of funds for your company during the previous financial year. Your company will continue to focus on mobilizing resources through the issuance of NCDs and subordinate debts in the current financial year. The directors are hopeful of getting working capital assistance through bank loans.

10. Share Capital

The authorized share capital of the company comprises 99,80,00,000 equity shares of Rs.5 each and 10,00,000 (Ten Lakhs) 14% redeemable preference shares of Rs.10 each, aggregating the total authorized capital at Rs.500 Cr. The paid-up share capital of the company as on 31st March 2024 stands at Rs.178.75 crore. The capital adequacy ratio of the company as on 31.03.2024 stood at 29.79% of the aggregate risk-weighted assets on the balance sheet and the risk-adjusted value of the off-balance sheet items, which was more than the statutory requirement of 15%.

11. Transfer to Reserves:

The net profit for the company was Rs.10,41,21,581.78. In order to comply with the Reserve Bank of India's mandate, the company transferred Rs.2,08,24,316.36 to statutory reserves.

12. Internal Audit and Internal Control.

To make sure that the company's assets are well-protected, your organization has established an appropriate internal audit and control system. The internal audit system makes sure that potential losses are kept to a minimum while safeguarding against income leaks. A qualified individual with ample experience and knowledge oversees the Internal Audit Department. The head office and branches have a written plan in place for regular audits.

To ensure the smooth and organized running of its business, the Board has set policies and procedures. These include following the company's policies, protecting its assets, preventing and identifying fraud and errors, maintaining accurate and comprehensive accounting records, and promptly preparing trustworthy financial disclosures. The Audit Committee evaluates the effectiveness of the internal audit system and makes recommendations for strategies to raise the audit team's performance even higher. The company's audit committee receives direct reports from the internal auditor. Periodically, the internal control systems are examined to make sure they still function well enough given the size of the company.

13. Risk Management

A Risk Management Committee oversees the risks, and your board has implemented a thorough risk management policy for the business. Besides the Risk Management Committee of the Board, the company has an Asset Liability Management Committee supported by the Asset Liability Management Committee Support Group, consisting of senior officials to monitor and manage the risk profile of the company. It seeks to foresee hazards and determine the best course of action for mitigating or eliminating them.

14. Human Resources

On the company's muster roll as on March 31, 2024, there were 1209 employees. Your organization views its workforce as its most valuable asset and offers every employee the chance to advance their education and professional growth. The company has a training department that offers a variety of training programs to all employees in order to enhance their professional abilities and general motivation.

15. Deposits:

Your Company is a Systemically Important Non-Deposit taking NBFC registered with Reserve Bank of India with Registration No. B-16.00119. The Company has not accepted or renewed any deposits covered under chapter V of Companies Act, 2013 and Non – Banking Financial Companies Acceptance of Public Deposits (Reserve Bank) Directions, 1998. Hence the disclosures under Rule 8 (5) (v) and 8 (5) (vi) of the Companies (Accounts) Rules, 2014 are not applicable to our company.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A. INDUSTRY STRUCTURE AND DEVELOPMENTS.

Financial inclusion and financial intermediation are facilitated by non-banking financial companies (NBFCs), which complement the traditional banking system. Through efficiency and diversity, NBFCs provide financial services to underbanked consumers and unorganized sectors like micro, small, and medium-sized enterprises (MSMEs), thereby contributing significantly to the promotion of inclusive growth. Few decades ago, a significant portion of India's population lacked bank accounts, so the government has been promoting financial inclusion. Furthermore, having sufficient access to credit is essential to financial inclusion, which has greatly expanded the opportunities for the NBFC industry. This is an important reason that a lot of NBFCs have been working hard to improve their services all the time by implementing new technologies, diversifying their offerings, forming strategic alliances, developing strong operational models, and adhering to regulations.

B. OPPORTUNITIES AND THREATS.

Since its inception, the NBFC industry in India has undergone significant changes, with the growth of the industry being facilitated by segments like consumer finance, microfinance, and housing finance. Numerous factors, including an expanding middle class, improved financial inclusion, and beneficial policy interventions, are responsible for this growth. A stable macroeconomic environment and a supportive regulatory environment have also helped the industry. The NBFC industry is expected to be worth an astounding USD 326 billion by 2023, demonstrating its growing power in the financial sector. In addition, the industry has demonstrated resilience in terms of a strong capital position, enhanced asset quality, sufficient provisioning, and increased profitability. Additionally, the industry has made use of digitization to provide MSMEs—which often have trouble getting loans from traditional banks—with alternative financing options. India's financial needs will increase due to the country's projected GDP of USD 7 trillion by 2030 and the growth observed in the NBFC sector, which will present numerous opportunities for NBFCs.

NBFCs can expand their operations in a number of ways, such as by leveraging blended finance instruments to access concessional capital and by securing reasonable loans from multilateral development banks. Furthermore, by employing digital tools and resources to transform their operations, NBFCs can lessen their environmental effect while simultaneously enhancing governance and resource management. Generally, the NBFC sector is growing due to opportunities and sustainability, and being creative and ahead of the curve will help us succeed in the market.

However, there are a lot of obstacles facing the NBFC sector, particularly from the banking sector. While banks compete for the same customers as NBFCs, the industry will witness increased competition as banks must grow. In order to remain competitive in this scenario, NBFCs will need to investigate securitization, co-origination, and co-lending. Additionally, likely is M&A activity, which has the power to change the sector's dynamics.

SWOT ANALYSIS

STRENGTHS

i. Solid history of funding against gold jewelry.

We have created an appropriate assessment and underwriting process based on this industry experience. In Kerala, Karnataka and Andhra Pradesh, we enjoy a strong reputation and brand value. Trust and reputation play a crucial role in this financing industry as they reassure customers of your credibility.

ii. Technology Adoption

In an effort to increase productivity and efficiency, NBFC business operations have begun to integrate technology in recent years. This makes it possible for businesses in this industry to provide straightforward, successful, and reasonably priced services like credit score computation, customer onboarding, loan disbursement and collection, among others. In the field of information technology, our organization has got a well-developed IT division. We have implemented numerous IT changes to support the stakeholders' diverse needs, including Automated disbursements, Interest payments to SD and NCD clients, EMI payment and payment schedule awareness etc. In order to make EMI payments easy, we also released the "Max Pay"

MAXVALUE

payment app in the Google Play Store, last year. IT divisions has developed and implemented web based as well as android based modules for supporting all kind of operations including customer-initiated operations. All efforts are being made to keep the software updated from time to time.

iii. Adequate Capitalization

In comparison to the 15% statutory requirement, we have an adequate capital adequacy ratio of 29.79% of the aggregate risk-weighted assets as shown on the balance sheet and the risk-adjusted value of the off-balance sheet items. Lower asset-side risk also supports capitalization.

WEAKNESS / AREA OF IMPROVEMENT

Refinancing

One of the challenges to NBFCs' smooth operation is refinancing. NBFC primarily obtains refinancing from banks, capital markets, and potentially its rivals. There is nothing else that NBFC can do in order to refinance. Refinancing is essential to the business world's ability to operate efficiently and sustain growth. In light of the refinancing options, the current scenario is unfavourable to growth sustainability. There are numerous options available to banks and housing finance companies for refinancing, including the National Housing Bank, which regulates housing finance companies, and the RBI, NABARD, EXIM Bank, and SIDBI for banks.

Non-flexibility in the classification of loans NPA:

Flexibility and classification under NPA are crucial components that must be scheduled for effective performance given the size of the corporation. Non-performing asset standards are important when evaluating how well a larger corporation operates because erratic cash flow increases the risk of payment delays.

Limited leverage ratio:

While small non-bank finance companies are not required to maintain a capital adequate ratio, they are subject to certain limitations, such as being unable to exceed a leverage ratio of 7. Because of this, these NBFCs are forced to rely on banks and other financial institutions in order to meet the financial demand for efficient operations. This presents challenges for the NBFCs because these institutions and banks conduct due diligence on the NBFCs in exchange for the borrowed funds. These NBFCs may encounter difficulties with this due diligence.

Lack of education among people:

The majority of Indians, who are the people that NBFC targets, are illiterate and ignorant of the standards and procedures surrounding NBFC. NBFC may face a number of challenges as a result. At first, consumers would be hesitant to use NBFCs for loans or other financial services, and these companies might have to pay more for advertising campaigns or service education. Even after taking advances from the NBFC, people not familiar with the processing of NBFCs, may cause NBFCs to indulge extra manpower and funds to make people learn about the NBFCs.

OPPORTUNITIES

The majority of people in India reside in places where banks are hesitant to offer loans and other financial services due to lack of necessary documentation in respected of their business financials/ income sources. These individuals are in need of financial assistance and have the ability to repay loans, but they are hampered by paperwork and are not granted loans. This is an area where NBFCs can intervene and expand their credit delivery through alternate modes of assessing business potentials and repayment capability.

THREATS

Changes happening in the external environment also impact the industry –

- Slow industrial growth.
- Globalisation—Entry of foreign companies and investors.
- Stiff competition within the NBFC and banking sectors.
- The entry of many banking and non-banking companies creates competition.
- Exposure to various industrial risks like - credit risk, interest rate volatility, economic cycle etc.

D. OUTLOOK

The Reserve Bank of India imposed supervisory restrictions on your company in February 2020, and those restrictions are still in force. The company has complied with all regulations during the last four years, operating within the constraints. Instead of aggressively expanding its credit, the company has concentrated on resizing and recasting its loan portfolios in response to the RBI's cap on risk-weighted assets. Because these markets provide consistent and dependable returns, the company is now placing a greater emphasis on quick recycling loan products like traders' loans and gold loans. Additionally, these loan products produce a healthier credit portfolio because they are less likely to default or become delinquent. Your Company also concentrated on utilising its resources in those geographies that offer better cost efficiency and margins.

The company, during the financial year 2022–23, written off around Rs.41 crore to clean up the balance sheet. The company has put in place a separate mechanism to deal with the monitoring and recovery of non-performing assets by creating a dedicated department at the corporate office headed by a vice president in the years 2023–24 for effective management in the reduction of NPA. The recovery of the written-off accounts has been strengthened, which will contribute to the net profit of the company in the years 2024–25. The company collected Rs.3.52 crore during the previous year (2023–24), and efforts are being made to collect the balance NPAs.

E. RISKS AND CONCERNS.

A key component of our company's operations is risk management. Credit risk, interest rate risk, market risk (price of collateral), liquidity risk, and operational risk are the main risks. If these risks are not properly managed, they could affect our operations and financial stability. In light of this, we consistently enhance our risk management policies and practices and rigorously apply them to ensure the smooth operation of our companies. The main goals of risk management procedures are to effectively measure, monitor, and contain risks within reasonable bounds.

The Board of Directors' Risk Management Committee (RMC) oversees the implementation of the company's numerous risk management policies, including the board-approved "Enterprise Risk Management Policy and Framework" and others that address risk tolerance, liquidity risk management, and credit risk management. The movement of different risk levels, the

makeup of the asset and liability portfolios, the state of impaired assets, recovery/collection, etc. are all reviewed by RMC on a regular basis.

INTERNAL CONTROL

In order to protect all of its assets and guarantee operational excellence, the company has implemented a sufficient internal control system. The system not only meticulously logs every detail of every transaction but also ensures that rules are obeyed. To make sure that all transactions are appropriately approved and reported, the organization also employs a team of internal auditors to carry out internal audits. The Audit Committee of the Board reviews the reports. Strengthening internal control systems and launching corrective actions are done as needed.

As stated below, we have a methodical audit plan in place to ensure that the business has appropriate internal control.

1. All branches will be audited once every 2 months.
2. A gold audit will be conducted in all branches every month and the branches having an outstanding gold loan of more than 3 crore will be audited once every 15 days.
3. All the other offices are being audited once in a quarter.

The audit committee reviews any outstanding irregularities and closely monitors the audit rectifications.

HUMAN RESOURCE

For company, individuals give their best work when they are a part of organization and they truly feel it. With a skilled and motivated workforce, the company aims to increase organizational effectiveness and broaden organizational skills. Our employees are our partners in progress, and their empowerment has been instrumental in propelling our company's growth to new heights.

A clear performance management model is in place for each business verticals of the company, which aids in coordinating employee performance with organizational goals. In that case, talent management and development are essential to attract and develop individuals and enhancing their capacity for personal development and, through them, the organization's growth. The business also recognizes and implements industry best practices in the areas of environment, health, safety, and security, which define the foundation of its operations and guarantee creating a work environment where employees are motivated to drive these practices.

INFORMATION TECHNOLOGY

The business has started to change the technology environment. Technology has been used to facilitate operational efficiency, statutory compliance, and the simpler implementation of partnerships for business generation and collections. The business has adopted enterprise platforms, including business process management and business intelligence, in keeping with this.

F. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY.

Given its size and business model, the company has developed an internal audit system that is sufficient, appropriate, and strong. In order to ensure strict compliance across all levels and verticals of the organization, your company has established an internal audit and control system that is well documented. The control system guarantees the security and protection of the business's assets. The audit system also makes sure that our revenue streams are safeguarded and that losses and leakages of revenue to the company are avoided. Reliable financial reporting is made possible by the control system.

With a well-organized audit and inspection department, the company is able to conduct timely and regular internal audits to assess the sufficiency of its systems and procedures as well as its compliance with other legal requirements and company policies. The department employs committed staff members who work round the clock to protect your business's assets, guarantee the quality of assets pledged, and assess how well operating units' risk management systems are working. The audit functions have been decentralized through the establishment of regional audit offices in significant regional centres, in accordance with the network and geographic outreach of the operating units dispersed throughout the southern states of the nation. Through on-site visits, the Regional Audit Offices maintain field-level control over the branches. The field-level auditors report to regional audit offices, who in turn share their findings with the audit and inspection department at the registered office of the company.

MAXVALUE

The highest level of audit authority within the company is the Board of Directors' Audit Committee. The internal audit department reports to the audit committee on significant audit findings as well as preventive and corrective actions to safeguard the company's interests, in accordance with the current audit architecture. The efficacy and adequacy of internal control systems are assessed by the audit committee. Additionally, it supervises the execution of audit recommendations, particularly those pertaining to risk management techniques. Apart from examining the internal control systems implemented by the Audit & Inspection Department, the Audit Committee also provides direction and essential guidance for the continuous improvement of systems and controls. The company's current auditing system is entirely independent and based on the finest corporate governance model.

G. DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE.

Operating revenue has dropped from Rs.149.65 crore to Rs.124.99 crore and interest income from the loan has decreased from Rs.136.15 crore to Rs.117.24 crore. This mostly had to do with the uncollected interest reverse that resulted from the rise in NPA. Also, fee income has decreased from Rs.13.50 crore to Rs.7.75 crore.

The company has diversified the portfolio primarily into the gold loan segment in order to lower the concentration risk. During FY 2023–2024, the percentage of the vehicle loan segment decreased from 53.90% to 40.55%, and the traders loan decreased from 4.27% to 3.03%. On the other hand, the percentage of gold loans has increased from 27.54% to 32.26%, while the percentage of microfinance has increased from 14.29% to 24.16%.

In FY 2023–2024, the debt-to-equity ratio decreased from 6.18 to 3.30. The ratio was reported to have been impacted by the rights-based infusion of shareholder equity from the previous fiscal year. The company also plans to make capital investments in equity shares in FY 2023–2024. A current ratio of 2 is appropriate. The company's diversification strategy will help current assets increase, improving the current asset ratio. Over the previous year, the current asset ratio rose from 1.05 to 1.65 as a result of the repayment of current maturities of long-term liabilities. In addition, the cost of borrowings will be reduced by increasing the NCDs and subordinated debts at notably lower interest rates. Additionally, this will aid in raising the current ratio. A business that has a quick ratio greater than one can pay off its current liabilities right away. The quick ratio of the company is 1.65, indicating its ability to pay off debts with its available cash.

**The Members of
Maxvalue Credits and Investments Ltd**

Report on Audited Financial Statements

Opinion

We have audited the accompanying financial statements of Maxvalue Credits and Investments Ltd ("the Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "Financial Statements") contained in the notes to accounts.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements read together with the accounting policies and other notes attached there to, give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, its profit and its cash flows for the year ended on that date.

Basis for opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Information Other than the Financial Statements and Auditor's Report thereon (Other Information)

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's Report including Annexures to the Director's Report in the Annual Report of the Company for the financial year ended March 31, 2024 but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate

internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors and Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

MAXVALUE

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act 2013 , we give in "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books
 - (c) The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with relevant rules issued thereunder.

ANNEXURE C' REFERRED TO IN PARAGRAPH 2(f) UNDER THE HEADING "REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS" OF OUR INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF MAXVALUE CREDITS AND INVESTMENTS LTD FOR THE YEAR ENDED MARCH 31, 2024

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting with reference to financial statements of Maxvalue Credits and Investments Ltd ("the Company") as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal controls with reference to financial statements reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls system with reference to financial statements reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements reporting and their operating effectiveness. Our audit of internal financial controls with reference to financial statements reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls over financial reporting.

Meaning of Internal Financial Controls with reference to Financial Statements reporting

A Company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

MAXVALUE

Inherent Limitations of Internal Financial Controls with reference to Financial Statements reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

1. Basis of Accounting:

The Financial Statements of the company have been prepared in accordance with Generally Accepted Accounting Principles in India (Indian GAAP). The company has prepared these Financial Statements to comply in all material respects with Accounting Standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules 2014 and the Companies (Accounting Standards) Amendment Rules, 2016 and the guidelines issued by the Reserve Bank of India as applicable to a Systemically Important Non-Deposit accepting NBFC. The Financial Statements have been prepared on an accrual basis and under the historical cost convention except for interest and discounts on non-performing assets which are recognized on realization basis.

The Accounting Policies adopted in the preparation of Financial Statements are consistent with those of previous year, except for the change in Accounting Policy mentioned below.

2. Use of Estimates:

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets and liabilities in future periods.

3. Property, Plant & Equipment:

Fixed Assets are stated at cost less accumulated depreciation and impairment losses, if any. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the assets to its working condition for the intended use.
